NOTES FROM A CITY EDITOR'S DAYBOOK—Bus service will be resumed in Dixon tomorrow—Thursday.

The Chamber of Commerce has made that official after a lot of back-of-the-scenes maneuvering. The schedule and a map showing the proposed routes are published on Page 5.

There's been a good deal of clamor for the resumption of the service. Because of that, a great amount of work has gone into the drive to encourage the restoration of passenger service.

It is difficult to tell how wholeheartedly the would-be patrons will welcome the new service. It's an improved routing, giving a major section of the city 10-minute service to the so-called "loop." That's better than the old service could provide.

But there's a difference between a lot of phone calls and letters saying that Dixon needs bus service and the actual tinkle in the cash box. Those of Dixon who have been clamoring for the buses can have it if they patronize it.

Of recent years, the cities of our country have been littered with the bones of departed bus companies. Transit firms have been subsidized in some instances by municipalities. Although figures have shown that it is simpler and safer to leave your auto in the garage and use a bus for shopping trips, it is difficult to persuade the average auto owner of that fact. If the guy who drives an auto chooses to battle traffic in business districts, and generally clog the parking facilities, it's his business, bless him. It'll take a lot of persuasion to convert him to a rumbling bus.

People experienced in bus transportation tell us that the slightest deviation in bus scheduling can break the back of a bus company. People are funny critters; they get used to something and it takes no end of advertising to persuade them to accept a new, better bus schedule.

That's what faces Dixon's new bus firm Thursday and the ensuing days. The operators want to convince patrons that the service will be better, that the routes are more convenient to a greater number of people.

Then we would suggest that you clip the bus route map on Page 5 and keep it handy. Refer to it and fix the routes in your mind.

We wish the new bus company well. We hope that it's operation will prove more prosperous than the border-line operation of the Dixon Transit Co.

Above all, we hope that all those who have been phoning the Chamber of Commerce will use the busses.

If the operation isn't profitable, patrons can rest assured that no bus company can survive.

Meet DHS Scholarship Award Winners

WIN SCHOLARSHIP AWARDS—Nine Dixon high students received medals last night for proficiency in various phases of study. Seated are (left) Miss Ruth Bitter, president of the Dixon branch, American Association of University Women, and Mrs. R. H. Krahler, president of the Dixon Woman's club, who presented the awards. Standing, left to right, are Bernard Lipnitsky, winner of the mathematics award; Robert Wright, industrial arts; David Emmert, agriculture; Margaret Lebre, commercial; Helen Harden, home arts; Janet Sheaffer, social studies; Carol Schnell, language; Sally Cappa, English; Charles Lesage, science.

DHS Scholars Honored At Scholarship Dinner

Capacity House Sees Award Presentations

Sixty-five Dixon high school scholars were honored at a Scholarship dinner held in the Loveland Community building last night. Among them were nine who received medals for outstanding work in various phases of classroom study.

The third annual dinner was sponsored by the Dixon Woman's club and the Dixon branch of the American Association of University Women.

The 65 students, who rated "superior" or "outstanding" honor roll lists, were seated at a special table which was ringed by a capacity audience including parents, teachers, municipal and civic leaders.

Special Awards
Selected to receive special medal awards were David Emmert, agriculture; Margaret Lebre, commercial subjects; Sally Cappa, English; Helen Harden, Home Arts; Janet Sheaffer, social studies; Robert Wright, industrial arts; Carol

Schnell, language; Bernard Lipnitsky, mathematics; and Charles Lesage, science.

Principal speaker was Mrs. Paul Dunakin, Wheaton lawyer, school and youth leader, whose topic was "What Price Excellence in a New World?"

Introduced by Arnold V. Lund, toastmaster, Mrs. Dunakin told the young scholars that by their endeavor in achieving high scholarship, they have won the reward of "getting more work" in the years ahead.

She warned them to practice self-discipline or "some one else will discipline you." She inferred that

in countries where there was a moral breakdown, the dictators moved in to regulate the thinking and lives of their subjects.

"On The Brink"

She also warned the students that "knowledge should be tempered with integrity and morals."

"You," she told the pupils, "are standing on the brink of the millennium or the brink of total destruction."

Mrs. Dunakin told the group that in the years ahead, there will be no room for mediocrity or complacency.

Also introduced were Mayor William V. Slothower, County Superintendent of Schools John Torrens, the Rev. and Mrs. Paul Lechner, Mr. and Mrs. Sherwood Dees, Mr. and Mrs. Sheldon Bross, Supt. of Schools Allen Lancaster, Mrs. Lund, and the various committee chairmen.

Mrs. R. H. Krahler, president of the Woman's club, and Miss Ruth Bitter, president of the AAUW, presented the medals to the nine students.

Hunter Heads Toll Road Investigating Committee

SPRINGFIELD, Ill. (P) — Rep. David Hunter Jr. of Rockford, a 33 year legislative veteran, today took charge of an investigation of the Illinois Toll Highways Commission ordered by the House.

Hunter, a Republican, was designated by Speaker Warren Wood to head up the first major inquiry voted by the 1955 General Assembly.

The House decision to set up a committee of nine for a close look at the turnpike agency's affairs culminated four months of intermittent criticism in the legislature of the commission itself and Chairman Evan Howell.

Criticism reached an angry peak last week when Howell failed to appear at a committee hearing on bills affecting the turnpike group and two days later was accused of making political threats against three legislators.

Establishment of the investigating committee was approved by voice vote Tuesday. A few minutes before, backers of the move won 36 to 32 on a roll call for immediate consideration.

A resolution backed by 11 Republicans headed by Rep. Arthur

Sprague of LaGrange, and five Democrats authorized the committee to probe the toll road group's financial and contractual commitments.

It also called an examination of its procedures and a determination whether the 1953 toll road act should be modified or repealed.

The special committee was given until June 10 to make its report. Hunter told a reporter he planned to study the resolution before calling an organizational meeting and mapping an approach.

Named to the committee with him were Republicans Sprague, Louis E. Beckman of Kankakee, Ben S. Rhodes of Normal and M. R. Walker of Danville, and Democrats Jack Baird of Waukegan, Joseph Lelivelt of Maywood, Clyde Choate of Anna and C. R. Ratcliffe of Beardstown.

On the test vote, Beckman and Walker sided against the inquiry and Rhodes was not recorded. The other six favored it.

Howell said in a statement following the House action that his commission "will be happy to cooperate with the committee in every way possible."

Sneak Thief Gets \$50 in Poultry Firm

A sneak thief apparently was responsible for the theft of about \$50 in bills and change that was taken from a hidden cash box in the Fordham and Havens poultry establishment, 117 Peoria Ave., Dixon, between 5 and 7:15 p.m. Tuesday.

The money was removed and the cash box thrown into a tank of water to destroy the fingerprints. The cash box was hidden in the basement.

Mrs. Gertrude Fordham, one of the three partners in the firm, said today that the thief apparently hid in the building until the store closed at 5 p.m. and watched an employee, Oscar Cline, hide the cash box in the basement.

Police were unable to find any signs of a break-in and are working on the theory that the thief was hiding in the building. Jack Fordham, also a partner, reported the theft to the police.

Introduce Bill to Lift School Tax Ceilings

Unit District Limit Would Rise to \$2

Request Record \$196 Million State Aid; List Other Bills

SPRINGFIELD, Ill. (P) — A bill raising property tax ceilings for school districts has been introduced in the Illinois house.

Under the present law, dual districts with grade or high schools are limited to a tax of 0.12 1/2 cents on each \$100 valuation with referendum approval and unit districts operating both grade and high schools have a \$1.77 1/2 ceiling.

The bill proposes to increase these ceilings by referendum to \$1.25 and \$2 respectively.

Rep. Charles Clabaugh (R-Champaign), chairman of the Illinois School Problems Commission, and three other legislators sponsored the measure Tuesday.

Also introduced by Clabaugh and others was the biennial state aid appropriation to common schools. It calls for a record high distributive fund of 196 million dollars, up 52 million over the 1953-55 period.

Other New Bills

Other new bills submitted included:

Eliminating the fee system for compensating justices of the peace and fixing their salaries at a range of \$3,000 to \$8,000, depending on township population.

Creating a commission to study the impact on civilian use of atomic power and determine steps to be taken for dispersal of industry in the event of atomic attack.

Providing a "use" tax on cars purchased outside the state by Illinois residents. The tax would be the same as the sales tax levy.

Imposing a tax of one cent a gallon on aviation fuel used in publicly owned aircraft.

Requiring airlines which serve liquor aboard their planes in Illinois to obtain a \$25 liquor license for each plane.

Prohibiting the sale or manufacture of sparklers. The Illinois Supreme Court recently held that sparklers are not banned by the state's anti-fireworks law.

Jury Acquits Man Accused As Robber

FREEPORT, Ill. (P) — A federal court jury today acquitted Boyd Gramsch, 36-year-old vacuum cleaner salesman, of a charge of bank robbery.

The sealed verdict, reached by a jury of six men and six women Tuesday night after six hours of deliberation, was opened in the court of Judge Joseph Sam Perry.

Gramsch, of Seward, Ill., was charged with the \$1,770 robbery of the Rock City bank, July 21, 1954.

A bank teller identified Gramsch as the man who robbed the bank. Gramsch's wife, Eileen, testified he was at home at the hour the robbery occurred. Seward is about 30 miles from Rock City.

Gramsch was arrested Jan. 25, after officials of the German-American State Bank at German Valley reported he visited the bank three days in succession. Police said the man who robbed the Rock City bank visited the place three times prior to the actual holdup.

Gramsch has been charged with intent to commit a felony in the German Valley case. His trial on that charge is scheduled to commence Thursday.

Council Okays \$75,000 Project

Curbs, Gutters, Paving For Northeastern Area

The Board of Local Improvements, consisting of Mayor William Slothower and Commissioners Orval Gearhart and C. Lyle Ballard, met following the city council session Tuesday night and voted to advertise for bids for a \$75,000 paving and curb and gutter project in the Washington School area.

The estimated cost of the six and a half blocks of construction is \$74,767.52. This includes \$9,181.97 in engineering and legal costs. The action is an outgrowth of a public hearing Feb. 16.

The city will pay 75 per cent of the cost out of motor fuel tax funds. The property owner will be assessed the remaining 25 per cent over a 10-year period.

The board will receive and open bids May 24 in the council chamber following the city council meeting.

The streets effected include: Forrest Avenue from north of Bradshaw to McKenney Streets; Sterling Avenue from McKenney to Morgan Streets; McKenney Street from Jefferson Avenue to Assembly Park; and Bradshaw Street from Jefferson to Forrest Avenues.

During the council session the members voted to amend section two of article two of chapter 21 of the revised ordinances of Dixon to increase the amount of bond the property owner must post with the city clerk before contracting anyone to do excavation work in the street or sidewalk.

The amended ordinance increases the bond for making an excavation in a concrete pavement or sidewalk from \$50 to \$100, from \$30 to \$50 for brick streets and sidewalks, from \$10 to \$35 for tar or gravel streets or pavements and a bond for \$25 for making an excavation in a dirt road.

Former Sterling City Clerk Accused of Embezzlement

STERLING (Special)—Former Sterling City Clerk, Mrs. Esther Dondero, about 40, was free on \$3,000 bond today after being charged with embezzlement of city funds.

Her husband, Louis, charged with aiding, abetting and assisting his wife in the embezzlement, also was free on \$3,000 bond.

Mrs. Dondero today said she had no comment for the press, but then said she had made \$3,000 restitution.

The Donderos, arrested Tuesday, waived preliminary hearing before Justice of the Peace Charles Speaker, and were bound over to the October grand jury.

Whiteside County State's Atty. John Poole charged Mrs. Dondero with withholding more than \$3,000 in parking meter receipts.

Mrs. Dondero was city clerk from April, 1950, until her resignation April 21, this year. She resigned under pressure from the city council, which immediately

Mamie's in Good Health, He Claims

Wait-and-See To Be Government Stand On Cease-Fire Talks

WASHINGTON (P)—President Eisenhower said today he has given all sorts of consideration to federal controls over distribution of Salk polio vaccine but still thinks the voluntary method is best.

The President told a news conference the government intends to see to it that no child ever goes without the vaccine because of inability to pay for it.

Volunteering his remarks about the vaccine program, Eisenhower also said government officials are convinced the present inoculation program should go ahead despite development of paralytic polio by a few youngsters who have received vaccine produced by one firm.

The President said that in his opinion it is both safe and wise to go ahead with the inoculations.

Eisenhower also dealt with these other topics:

Cease-fire—Eisenhower said that at the moment the United States is in a sort of wait-and-see position with respect to possible talks between this country and Red China on a cease-fire in the Formosa area.

He added there are a number of countries — apart from the United States — which are interesting themselves in the prospect of a cease-fire. There is nothing new on the subject, he said.

Mrs. Eisenhower—the President said Mrs. Eisenhower's health is not as robust and strong as that of some people, but she is a good healthy person despite what he termed her inability to throw off the effects of a very serious virus infection which she developed last March.

The reporter who put the question about the first lady's health said it was prompted by two things: Democratic National Chairman Paul Butler's statement in March that the President might not seek a second term because of the state of Mrs. Eisenhower's health, and secondly, cancellation of all of Mrs. Eisenhower's social engagements for this week on orders of her physician.

Eisenhower said that in his opinion his wife's general health the last 2 years has been better than it was during the previous 10.

Polioes—A reporter recalled that Eisenhower remarked last week that his term still had 21 months to run, and that he regarded that as a long time for a man of his age. He asked whether the President kept a calendar on the wall and was checking off the months to the time when his term will expire.

Joining in the laughter, Eisenhower replied that he always does know what the month is.

Postal pay—Eisenhower avoided saying whether he will veto a bill to increase the pay of postal workers an average of 8.8 per cent. He indicated a few weeks ago he would refuse to sign any bill providing for a greater hike than 7.6 per cent. But to questions today, Eisenhower said only that he looks for the bill to be on his desk shortly and he will give it careful study.

A Senate-House conference, committee agreed on a measure calling for an 8.8 per cent increase.

Rural Ogle Machinery Care Saves Dollars

By GEORGE D. PERISHO
Ogle County Farm Advisor
OREGON—(Special)—Hundreds of dollars every year can be saved by farmers if they will check the correct adjustments and follow the correct lubrication procedure on the machinery they operate.

When Jerry Bultman of the C. W. Johnson Implement Company, Forreston, was called upon to discuss use of forage harvesters with its adjustments and maintenance, he commented that he was unable to talk before a group.

besides, he did not have too much to say.

This was at the Farm Machinery Clinic in Forreston. But it seems to me that this one statement alone should be worth a lot to all farmers in Ogle County.

Jerry, if you will just keep on talking like that maybe in time we will have more farmers conscious of the importance of their operator's manual. He stated further that a book of operator's instructions was put out with every machine complete with pictures and drawings to make adjustments simple enough for anyone to follow.

Why then should we fail to keep our machinery in proper adjustment and in a good state of repair and thus avoid costly breakdowns when we start our field work?

Besides a forage harvester, Walter Ratmeyer of the Ratmeyer Implement Company, explained the adjustments of the corn planter and told how it was an important piece of machinery capable of saving farmers money if operated correctly. Schoonhoven's Garage was represented with a Ferguson tractor and mower.

With a few more days of good warm weather, many of you will be thinking about getting into the corn field. Some of the things that are very important to consider in planting corn are: Be sure to have the proper plant food available in the soil, use the correct plant population according to the plant food you have available, use adapted varieties and have a good seed bed prepared. After the corn is up you will want to be prepared to control weeds and insects.

In addition to conserving moisture as far as plant food that is needed in the corn field, corn will respond fairly well even though there is a slight deficiency in limestone requirements; however, it is very important you have plenty of phosphate and potash if you expect to have high yields of corn. In addition, your soil should contain plenty of organic matter so that it will absorb and retain moisture that falls throughout the year, as active organic matter is a secret of soil tilth, water holding capacity, a source of nitrogen for the growing crop and an aid to getting air down to the roots. Corn roots need oxygen to grow properly just as a human needs oxygen to live.

If you have not already tested your soil to determine the phosphate and potash needs, consider it too late for this year, but certainly you will want to plan for next year's corn crop now. And at least by fall you should have

the samples picked up and into the laboratory so you will have the results in plenty of time to obtain plant food for next year's planting.

It takes approximately 30 days to get a complete soil test report back from the Ogle County laboratory, and, at the present time, we are having soil test clinics upon completion of the reports. At each of these clinics we discuss the plant food that should be applied, interpretation of your results, and why it is more efficient to apply your fertilizer in the ingredient form rather than as a mixed fertilizer.

It is quite simple to figure the money value of a ton of fertilizer. A pound of nitrogen is worth approximately 15 cents, a pound of phosphate is worth a dime and a pound of potash is worth a nickel. It is merely a matter of arithmetic to figure the value of a 10-10-10 fertilizer. To this base price it will be necessary for you to add the cost of mixing the fertilizer and delivery charges. The numbers on the fertilizer bag tell the amount of plant food in the fertilizer and it is the plant food that counts. In next week's column we will discuss the plant population, adapted varieties and importance of a good seed bed in planting corn.

On May 16 the State 4-H Camping committee will meet at White Eagle 4-H Camp. This will give folks from other areas of the state a chance to see our camping facilities for this district.

Are you thinking about camping? It soon will be time for you to get your reservation in if you would like to attend district camp this year. Any 4-H member may attend district 4-H camp.

There will be a clean-up day at the district camp for 4-H members of northwestern Illinois on May 22. Any Rural Youth or 4-H member is invited to bring a picnic lunch and make a contribution to the 4-H camp by assisting with the final clean-up campaign.

The 4-H officers training school will be held at the Oregon Grade School gym, Monday at 8 p.m. DST. This training session will be held for the presidents, vice presidents, secretary-treasurers and reporters. All officers mentioned should attend this session for they will receive pointers on what their responsibilities are and methods of carrying out his or her duties.

The 4-H federation has made plans for the county 4-H Sunday service which will be held at the Oregon Coliseum on May 15 at 8 p.m. The federation committee has outlined a very good program which they will conduct, and have engaged Oscar Brissenden, assistant to the Illinois Agricultural Association president, as the speaker for the evening. The 4-H federation members are planning to bring flowers to the service. The public is invited to attend this event.

Romanian Composer Dead at 73

PARIS (U)—Georges Enesco, 73, Romanian composer, conductor and violinist, died today.

Enesco made several visits to the United States, his last a concert tour in 1946. He was presented a distinguished service medal in his sickroom last Sept. 27 by the Schroeder Foundation of St. Louis, Mo., an organization under the leadership of H. L. Schroeder which is dedicated to the advancement of cultural arts.

Among Enesco's compositions were "Romanian Rhapsodies" and the opera "Oedipe." He began playing the violin when he was 4, entered the Vienna Conservatory when he was 7 and moved on to the Paris Conservatory at 13.

Greek City Rocked Again by Quakes

ATHENS, Greece (U)—Press reports from Volos said today the quake-stricken city was shaken by 40 post-seismic shocks some described as fairly strong, during the past 24 hours.

More houses have collapsed and the population was reported panicky.

The reports said a total of nine persons have died in quakes which started in April.

Decide Against A SEATO Army

BAGUIO, Philippines (U)—French sources said today the eight-nation military planners conference here has agreed not to establish a permanent military headquarters under the Southeast Asia Defense Treaty.

This apparently rules out a SEATO army, said these sources, who asked that their names not be used.

Attempt Rescue

JAKOBHAVN, Greenland (U)—Rescue boats fought through drifting ice today in an attempt to save dozens of fishermen marooned on three ice floes off the west coast of Greenland.

Two Jap Vessels Reported Missing

KUSHIRO, Japan (U)—Two Japanese fisheries research vessels are missing after radioing distress signals, the Maritime Safety Board reported.

Officials said the 145 ton Hattushiro Maru, with 24 aboard, was last heard from May 1 when she radioed she was running aground on an island south of Attu in the Aleutians.

The 70 ton No. 10 Hoko Maru with 16 aboard reported the day before she was in trouble about 1,200 miles northeast of Japan.

Chemicals Trap Man Who Tried Extortion Plot

PORTLAND, Ore. (U)—Glenn Colgan, 28, who said he needed the money because he was sick and out of work, admitted Tuesday he had attempted an extortion.

He was trapped by chemicals which had been placed on a dummy package. Chief of Police James Purcell said. These chemicals glow under a special light. Colgan admitted the extortion attempt when his hands glowed in the test, Purcell said.

Purcell, quoted him as saying he telephoned the offices of Fred Meyer, Inc., a grocery and variety chain, Monday threatening that one of the stores would be bombed unless \$10,000 was left in a package at a suburban street intersection.

A package filled with cut paper was left as directed. Somehow Colgan managed to pick it up and get through a line of police who had surrounded the area, Purcell reported.

Colgan, fearing one of the police

had seen him at the scene, walked into the police station Tuesday, hoping he could explain away his presence in the area, Purcell said.

He quoted Colgan as saying his car had run out of gas.

But after six hours of questioning, Colgan broke down and admitted he had telephoned the extortion demand, picked up the package and burned the contents

when he found it was only paper, Purcell said.

Away We Go

We Americans are widely renowned for moving around a lot. We're great travelers, of course. But more important, we keep changing the places where we live and work. Just how much of this we do can be gauged from some new census bureau figures. They show that from April, 1954, some 29 million Americans changed their homes. That's nearly a fifth of the population.

Most of this switching about seems to occur within regional limits. But about five million of the 29 million moved from one state to another. The Far West and the North Central areas gained from this migration, at the expense of the South and Northeast.

This mobility, as the sociologists like to call it, has been an American habit since frontier days. When things went bad in one spot, a man just picked up and moved on in search of better opportunities elsewhere. Usually he found them. The habit accounts both for some of the strong points and some of the weaknesses in American life.

Experts in and outside the country mark us particularly as a people willing to change, to try something new. This makes for a flexible turn of mind, and a readiness to experiment. We aren't tied fast to ancestral traditions of the sort that too often act as a heavy drag on some of our foreign friends.

So Americans are inventive, not merely in the technical field but in organizing people to get work done. A good part of the credit must go to the mobility that periodically pulls them out of the rut of old ways and doing and thinking.

Because of their youth as a people, Americans have not always shown themselves to be the most tolerant of humans. But over the years their habit of moving about will assist the growth of tolerance. Nothing so aids understanding as getting around and seeing firsthand how other folk in other regions live.

Varied backgrounds make for richer personalities. Millions of us have lived in two or more regions of the country. Almost inevitably, we can bring to our daily living a more seasoned, balanced outlook than would otherwise be possible.

Yet there's another side. Since many of us are continuously tearing up roots and moving on, often over long distances, we don't have too much chance to build stable family, neighborhood and community relationships.

Things always seem to be in a state of flux. This means confusion, uncertainty, problems. The problems are both big scale and personal. The specialists appear to agree that our mobility greatly contributes to America's high divorce rate, and to juvenile delinquency and major crime.

Some people do not simply move. They flit, from place to place and job to job. Opportunity always seems to beckon in a country so rich as ours. Too much moving around can have unsettling effects on many economic enterprises, not to mention the individual lives involved.

But by and large the good would appear to outweigh the bad. Many who look at this nation believe the "fluid" character of our society is our most distinguishing mark. That fluidity, up and down the economic scale and across all geographic lines, is a wellspring at which Americans can constantly renew their spirit and energy.

If You'd Help Husband, Follow These Do's, Don'ts

Here are a few do's and don'ts for the wife who wants to be a real asset to her husband:

Don't talk "poor mouth" when you are out with friends. Most women know it is poor taste to brag about what they have. But it is also poor taste to brag about what you haven't got, especially when you are talking to people who obviously have more than you do.

If your husband is the kind who talks over business matters with you, regard everything he tells you as a confidence. You can't go wrong by not repeating what you know, but you can often go wrong by telling what you know or even hinting that you know something you can't tell.

Don't assume that just because you spend less for clothes than any woman in your crowd, you husband will be pleased. He may be but it is just as likely that he will secretly wish his wife looked as well dressed as his friends' wives.

GOOD MEMORY HELPFUL

Cultivate a good memory for names and faces. The woman who remembers the people she meets creates an impression of friendly interest, whereas the woman who can't put names and faces together seems to be aloof or standoffish when her only real fault is in having a poor memory.

Never ridicule others. The woman who has a reputation for a sharp tongue or for biting sarcasm may get a few laughs but she wins few friends for herself or her family.

Give at least a little of your time and talent to community projects. That will help your family put down roots wherever you live and you'll be far more effective as a "doer" than as a "why don't they-er."

Be a warm-hearted, responsive, friendly person. If a woman doesn't have those qualities she isn't much of an asset to her husband no matter how many brains or how much beauty she has or how competent or clever she happens to be.

There are ten mills in one cent, the mill's value being one-tenth of a cent.

In Hollywood

By
ERSKINE
JOHNSON

HOLLYWOOD — (NEA) — Exclusively Yours: Impersonating Marion Brando's Oscar-winning "On the Waterfront" performance has become a national craze. A million kids, from toddlers to teenagers, are chewing gum and mumbling hardly distinguishable words along with 334,854 night club and TV comics.

But only two of the pros, Jimmy Durante and Sid Caesar, register on Marion's laugh meter.

"Both of them gas me," he laughed on the "Guys and Dolls" set.

Sure, the Oscar winner peeked in on Sid's "On the Docks" TV satire of the year's best movie. Only he didn't think it as funny as Sid's fun-poking at "A Streetcar Named Desire" a couple of years ago.

"I think Caesar is one of the most creative comics around," Marion told me, "but there was a poor choice of scenes from 'Waterfront.' He played it too straight. He was too good."

Are movie offers piling up since Marion won that Oscar? You bet. He isn't saying how many—I know of eight—but he was willing to grin it:

"I guess I won't starve next year."

He won't starve next week, either. He's getting \$200,000 for "Guys and Dolls."

This is Hollywood, Mrs. Jones: Zsa Zsa Gabor sent George Sanders a telegram of congratulations the day their divorce was final.

THERE'S ANOTHER lost voice in Hollywood besides Mario Lanza's. Francis the mule loses one permanently after "Francis in the Navy." It's the last Francis flicker and the "voice," Chill Wills, is checking off the lot.

The Witnet: Harry Canning says there's no truth to the rumor that a certain warbler plans to change his name to Perry Cocko(mo).

NOT IN THE SCRIPT: Millionaire movie backer C. V. Whitney, about film making:

"It's like horse racing — only you bet more money."

Revival of 3-D by U-I for its "The Return of the Creature" is a 30 per cent success. Half of the theaters booking the picture, filmed in both wide screen and 3-D, are playing it as a dephile. . . . Paramount's still looking for a big-name feminine star to laugh it up with George Gobel in the remake of "The Lady Eve." But the Gobel office denies that "So There You Are" will be the film's new title.

"We want to avoid a Gobelism and play it straight," a spokesman told me.

"The Big Shock" is the latest in an epidemic of odd movie titles. But one member of the cast, Frank Lovejoy, finds it fairly normal compared to the title of his first Broadway play—"The Snark Was a Boojum."

Strangest movie title of all was the prewar "Come On Marines." It was based on a story titled "The Pink Chemise."

HOLLYWOOD UNCENSORED: David O. Selznick's son, Jeff, is romancing a pretty model, Fran Lansing. . . . Eyebrow-lifting note: Claudette Colbert returning to the screen in a western just as Columbia is preparing a musical version of her big film hit, "It Happened One Night."

Controversy still rings bells at the box office. MGM's rock 'em and sock 'em "Blackboard Jungle" is the studio's best money maker in years.

Short Takes: Esther Williams' aquacade makes its big splash in England in the spring of 1956, then will tour the U. S. . . . Geordie Hormel received his Coast Guard discharge just as his attorneys picked up his final divorce decree from Leslie Caron. He's headed for Austin, Minn., the old home town.

Sulfa and Antibiotics Help Cut Meningitis Death Toll

By EDWIN P. JORDAN, M.D.

"A nine-month-old youngster in our neighborhood" writes Mrs. O. "has died of meningitis. Two of my children were in contact with this child. I was under the impression that there were two kinds of meningitis—spinal and tubercular—and that both were contagious. Is this correct or are there other kinds of meningitis too?"

There are actually several kinds of meningitis. It should be understood that the name comes from the delicate lining surrounding the spinal cord and brain known as the meninges. Any inflammation of the meninges is known as meningitis; the most likely source of inflammation is infection with some germ though there is at least one type of such inflammation in which no germ is present.

OF THE GERMS which can cause meningitis the most impor-

tant is the one known as a meningococcus which causes epidemic meningitis (also known as meningococcus meningitis). The germ which causes pneumonia—the pneumococcus—can also cause meningitis. This variety years ago was almost always fatal but now can frequently be treated with success.

The tubercle bacillus may cause tuberculous meningitis and in fact there are several other germs which may cause inflammation of this membrane. Most forms are contagious but only to a limited degree, with the exception of epidemic meningitis.

IT IS NOT POSSIBLE to discuss all of these varieties except to say that most of them can be treated much more successfully today than in the past thanks to the development of penicillin and other antibiotic drugs and the sulfa preparations.

Another type of meningitis is that which is known as influenza meningitis. Actually the germ responsible has no definite relation to influenza. Influenza meningitis is rather common in children although rare in grownups. Until recently most of those who were stricken with this disease died. In one hospital between 1920 and 1931 only one survived out of 78.

AFTER THIS A serum was developed which enabled 31 of another group of 201 to recover. Now other new discoveries have made possible still better results in the treatment of this killer of infants and children. Part of the improvement is caused by the development of better serums, the most powerful being one prepared from rabbits. Also the use of the sulfa drugs has helped a great deal.

How great a change has been brought about in the chances for these children is shown by a report of 28 children with influenza meningitis. Twenty-four of them recovered completely and only four died. The treatment involved the use of serum and of sulfa drugs combined. Other good results with antibiotics, such as penicillin either alone or combined with sulfa or serums, have been reported. In general meningitis of almost all kinds is a far less serious hazard than formerly.

Westbrook Pegler

By WESTBROOK PEGLER

LOS ANGELES—Gene Fowler has written rhapsodies about John Barrymore, Sadakichi Hartman, a hybrid Japanese-German, and William C. Fields, who began his theatrical career as a juggler under the name of Claude Nesselroe. The more he tries to make them admirable and amusing the more repulsive they come out.

Fields was an unregenerate specialist in raucous, uncompromising low-downness and a dirty double-crosser, too. He promised to leave me one million dollars in gratitude for the pleasure I had given him with my essays about Eleanor Roosevelt. When his will came out I did not get a nickel.

There was a bequest for an orphanage with a specification that colored children as well as white should be admitted. Fowler has always insisted that, in the long run, this was all for the best, but it came to nothing because the bum did not leave enough to cover this philanthropy. I feel that I am not qualified to discuss it objectively.

As for Fowler, for many years he has been known as Booker T. Fowler and, in the days of the rubber-neck wagons in Hollywood, he used to parade the block where he lived pushing a two-passenger baby-carriage. The passengers were little girls, one a golden blonde, the other a pale chocolate, named Mavis, a pretty name, too, which her mother, a Puerto Rican sojourner, had adopted from an advertised chocolate drink which you may remember.

The mother presently took Mavis back to San Juan and after a few years the Fowlers got a request for a grand piano as Mavis was showing symptoms of talent. Gene and Agnes settled for an upright.

Mr. Fowler's office in his home has a stained glass chapel window from the Old Tombs prison in New York which Bill O'Dwyer sent him when they were tearing it down, and other churchly ornaments which impart a pervasive fragrance of religion. He is a strange man in a way that I have never observed in any other man. Do you suppose I may have been helping around with a saint all these years?

He appointed himself public defender of Barrymore, Hartman, and Fields after they had died respected by few and those few mostly low characters. And, as an act of piety, he did "Beau James," a biography of Jimmy Walker which quietly soothed away the angry contempt of many who had not forgiven Walker's betrayal of the confidence of so many young people.

No man but a cop or a warden has known intimately as many hard cases as Gene has, and it is a strange thing, impressing me more and more, that he never condemns anyone. In any gathering worldly men, the conversation always drifts around persons who have not troubled to endeavor themselves, but the worst I have ever heard Gene say is that one such character always puzzled him.

One night during the war at an apartment in New York where his daughter, Jane, was entering some kind of her age, someone teed off on Hitler. Gene said, well, maybe the poor fellow had some hidden virtues.

Recently, Gene has been doing a book on picturesque personalities of the newspaper business whom he knew in Denver, New York and Chicago. He asked E. D. Coblentz, of the Call-Bulletin in San Francisco, an old-time Hearst editor, for some stuff on a notorious grafter and blackmailer. Coblentz obliged and Gene thanked him, but he said to Ben Hecht:

"Gee, Ben, I can't say that about the man. He is dead."

Another old spavin obliged with his own autobiography in which he said his hobby was drinking whisky. This was signed and authorized, but Gene said he could not bring himself to use it. It would harm the man's reputation.

Once, a few years ago, he was going to do a magazine piece about a genius who had been a pretty nasty fellow. In one incident, an old manager of fighters had turned up busted, selling burial plots in a cemetery for colored

people of elite status. He wanted \$200 and he related, bitterly, that he had tried to touch this other fellow, only to be turned off. He had actually given this man many thousands and had paid his way all over Europe back in the golden age. Fowler gave him the \$200.

Now Gene was going to do this magazine piece about this ingrate and he was going to lay it on line for once.

I bet him \$10 he would flinch. The piece came out sheer eulogy.

He first came to New York escorting a corpse for an undertaking in Denver according to legal requirements of long ago which may obtain still, for all I know. They got separated in Kansas City and there was painful confusion for several days because the first war was on and Gene had lost his draft card while he was out sightseeing and got arrested.

This was the climax of a run of hard luck. Just before he left Denver he refereed a fight in the Baker theatre, a burlesque house, and stopped it when one of the boys went limp as he stumbled to his corner. Gene looked at his glazed eyes and spoke to the kid. There was no answer and Gene said he was going to stop it. The kid's manager pulled a knife and said if Gene did that he would kill him.

Fowler stopped it and the crowd booed him terribly. But he followed the boy and his handlers to the dressing room and the kid slumped back dead in his arms on the table.

"That night I learned to despise crowds," Gene said. "I was getting \$15 a fight and I needed this one for the mortgage on grand-ma's house."

"The coroner called a jury. A friend of mine named Marty Conway got on the jury as foreman. He had a wonderful sense of humor so he kept on holding out for manslaughter instead of accidental death."

"Finally, he talked the rest of them over to manslaughter, but they took a recess before voting the verdict and Marty sneaked out and disappeared for a month. So they voted manslaughter. He was a great joker. Anything for a laugh. It cost me my \$15 for a lawyer."

Mr. Fowler is working with Ben Hecht and me on "The Life and Death of Al Capone," but I think I will try to buy him off. He will want to canonize Capone.

Tentative Routes for New Bus Service in Dixon

Here is the tentative routings for the new bus line proposed for Dixon. Each of the four routes shown can be accomplished in 15 minutes, giving most patrons a 10-minute service to the downtown area. Service is scheduled to begin Thursday morning.

First pheasants arrived in America from China in 1881 and were released in Oregon's Willamette Valley.

To cut frosted cake without crumbling the icing, dip the knife in hot water and wipe dry before using.

Japanese, Chinese and Mexicans who eat U.S. diets average taller than those who live on the common diets of their homelands.

Men's hat sizes are figured by the diameter of the head, while women's are gauged by the circumference.

More than 800,000 standard box cars would be required to load the annual U.S. production of paper and paperboard.

Some scientists believe that changes in air pressure with the passing of storms sometimes trigger earthquakes.

Committee Rejects Army Boost

WASHINGTON (AP)—A House Appropriations subcommittee has rejected a move aimed at avoiding a planned cut of 75,000 in Army strength during the coming fiscal year.

Rep. Flood (D-Pa.) disclosed today he had failed in an effort to get the subcommittee to add about 750 million dollars to funds for the Army during the year starting July 1. He told newsmen he would try again Thursday when the full Appropriations Committee meets to consider a multibillion-dollar bill to finance the armed services.

If necessary, he said, he will carry his fight to the House floor. The administration's defense policy-based on greater reliance on air power and new weapons—contemplates scaling down all of the armed services except the Air Force. Plans call for the Army to be down to 1,102,000 men by June 30, 1956.

Gen. Matthew B. Ridgway, Army chief of staff, has opposed the Army cut, contending atomic warfare calls for more, rather than fewer, fighting men.

Testing... Testing...

CHICAGO (AP)—Bernard Sulski today has a fuller appreciation of the words of poet Robert Burns about "The best laid plans of mice and men."

Bernard carefully timed various routes from his suburban Northbrook home to Resurrection hospital in the months since he first learned he was to become a father.

On the basis of test runs, he chose Eden's Expressway because he could make the 17-mile run in 13 minutes.

Tuesday morning when his wife, Natalie, said the time had come, they jumped into the car and raced down the expressway.

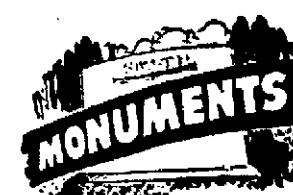

But they got lost on a cloverleaf exit.

The baby was born in the front seat.

Later at the hospital, mother and 7-pound, 6-ounce son were reported doing fine.

5 BASIC REASONS FOR PONTIAC'S RECORD-BREAKING SALES

1. PONTIAC COSTS LESS THAN ANY CAR EQUALLING ITS 200 HORSEPOWER

If you delight in flashing performance, here's all the reason you need to join the record-breaking thousands who are swinging to Pontiac. The 200 horsepower delivered by the economical Strato-Streak V-8 with the four-barrel carburetor, optional at extra cost, is the highest power ever delivered by a car at Pontiac's price—higher than that of cars costing considerably more. For thrift and thrills it's Pontiac all the way!

2. PONTIAC COSTS LESS THAN ANY CAR EQUALLING ITS LONG WHEELBASE

Model for model, Pontiac has a longer wheelbase than any car at its price, or any car delivering 200 horsepower . . . 122" or 124", depending on the Pontiac you select. That's size where it really counts—and it's important because a long wheelbase is the reason for Pontiac's smooth, road-leveling ride and the roomy comfort of Pontiac's large, luxurious Body by Fisher—advantages that put Pontiac on a level with far costlier cars for sheer riding pleasure.

3. PONTIAC COSTS LESS THAN ANY CAR EQUALLING ITS LUXURY-CAR STABILITY

The big, husky Pontiac with rugged X-member frame gives you the safe, solid feel at cruising speeds that motorists have formerly paid high prices to enjoy. And it links this road-holding comfort with ease of control like that of costly sports cars. You travel in superlative comfort in a Pontiac for the lowest price ever placed on such big-car stability.

4. PONTIAC'S DISTINCTIVE BEAUTY IS UNMATCHED AT ANY PRICE

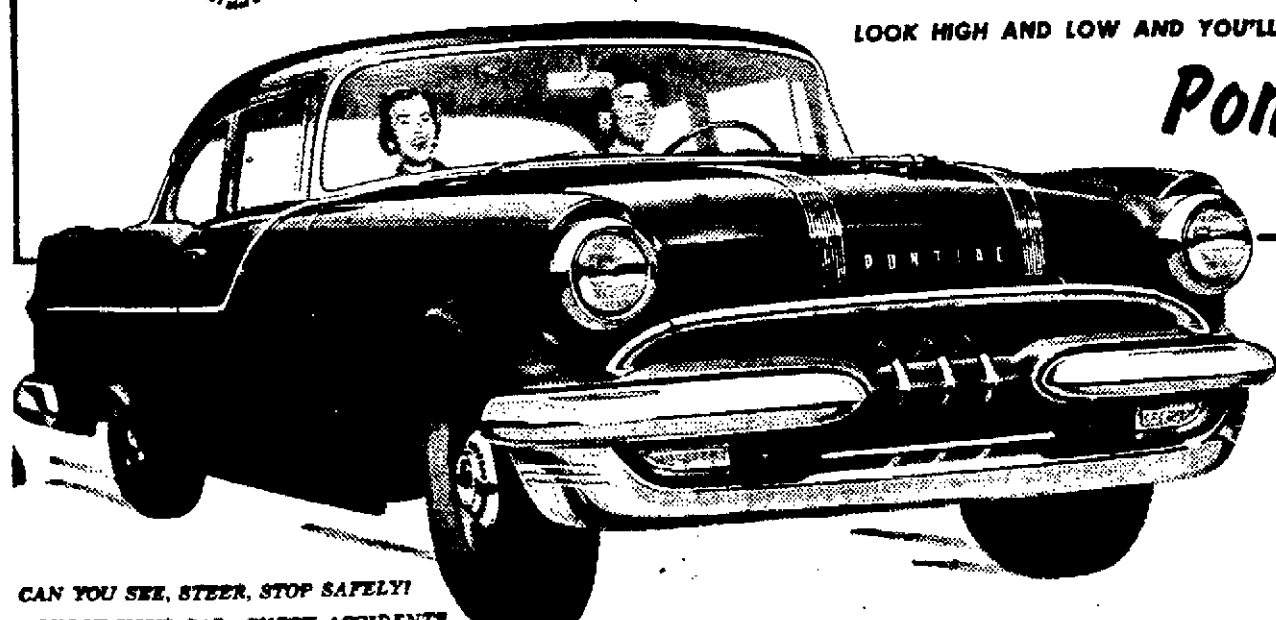

Pontiac's style and beauty are a perfect match for its colorful performance. Future-fashioned lines, Vogue Two-Toning and Twin-Streaked hood provide dash and glamour unsurpassed by any other car at any price.

5. You can buy a big, powerful Pontiac for less than many models of the lowest-priced cars and much less than stripped economy models of higher-priced makes

Come in and let us fill you in on all the facts and figures. We know you'll be pleased to see how little it costs to enjoy the pride and pleasure of fine-car ownership!

Joanna Circle Has Meet With Mrs. Densmore

The April meeting of Joanna circle of the First Methodist church was held recently in the home of the president, Mrs. Faye Densmore. The meeting was opened with the reading of a poem, "Meditation," by Mrs. Donna Besetti.

During a short business meeting, Mrs. Densmore read a pamphlet about Mercy Center, Chicago. A collection was taken for the center. Devotions, "Who Is My Neighbor," were given by Mrs. Madge Wallace.

Cub Pack 311, Dads To Fish Saturday

Cub Scout Pack 311 and their fathers are planning a fishing trip for Saturday, May 7. The Cubs and dad are asked to meet at 8 a.m. at South Central school. They will then depart for Franklin Creek to fish until noon.

Final chapters of the study book were presented by Mrs. Jeanne Pierce.

Refreshments were served by Mrs. Jean Chadwick, Mrs. Isabel Benell and Mrs. Virginia Peasley. A spring theme was used for the decorations.

Woman's Bible Class Meets

Members of the Woman's Bible class of the Methodist church met Thursday afternoon with Mrs. Dave Helmick. Mrs. R. L. Vest had devotions.

Misses Grace and Daisy Gorton were presented gifts from the class as they are leaving Dixon permanently.

Mrs. Harry L. Quick showed her Hawaiian pictures.

Small fry like this dish. Cook chopped beef lightly in a skillet and mix with cream sauce. If lean beef is used, add a little fat to the skillet when you are cooking it, but not too much!

Home Adviser Repeats ABC's of Good Lighting

By JUNE PILGRIM
Lee County Home Adviser

Recently Harlan Baker from the Public Service Company spoke to a group of 4-H girls and mothers at the Farm Bureau building, Amboy, on the "Better Light, Better Sight Activity." We learned some things which I think it wouldn't hurt everyone to know.

For instance, did you know that a bulb on its side burns out faster and gets much hotter than a bulb that is hanging down—and therefore is dangerous to have in the hay mow? Also we discovered that bulbs burn 50% longer when hanging down than when upward.

dangerous to have in a hay mow? Also we discovered that bulbs burn 50% longer when hanging down than when upward.

The A.B.C.'s of good lighting are: A—avoid glare and harsh shadows, B—better light when and where you need it and, C—correct direction of light.

We learned that one should never be able to see the bulb inside a lamp shade from any angle of the room. The shade should be at least 16" across the bottom and 15" high. The shade should have enough opaqueness that the exact spot where the bulb is does not show up, but it should not be so dark the light can only come from the top and bottom. Unless there is central lighting in the room or the lamp is being used for one specific purpose, as sewing.

To Sew
A person needs twice as much light for sewing as for reading and 10 times as much for sewing as you need in the hall. Sewing is a close-seeing task where your eyes must focus on a small thread and if the thread is the same color as the material it's even harder.

There should be different amount of light, then, on "local" areas or areas where some particular activity is being carried on as studying, sewing and cooking, and in general lighting which lights the whole room as a central ceiling fixture.

Study lamps should be high enough so that the light evenly covers the entire desk surface. Also another central light in the room should be on to eliminate shadows and glare. A desk blotter helps reduce glare on the top surface. Above all, avoid spotlighting one area while the rest of the room remains dark. If you use a kitchen table for a study area and there is a great deal of white on the walls and cupboards, use a table lamp with a yellow bulb or shade as yellow will reduce the harsh glare of all-white and is generally more restful on the eyes.

Reading in bed, according to the experts, is not a good idea, especially with inadequate lighting. At least 150 watts should be above the person's head so it shines right on his reading surface—and a central light in the room should remain on to eliminate glare and shadows and so when the person raises his eyes they don't have to re-adjust to blackness.

As long as we're on bedrooms, let's discuss dressing table lamps. There should be two lamps of a height level with the eyes. The shade should be clear so as not to distort colors. A yellow is best. After all, we want to see ourselves as other see us.

Today there are many types of diffusers and shades that can be clipped over bare bulbs that help eliminate harsh light. Many throw the light up against the ceiling which then throws the light back over the room. This is alright if your ceiling is painted or papered a light color, but for a dark ceiling you will need a less opaque fixture and more lamps also. The darker the walls and furnishings the more they will absorb light. You've probably noticed how much brighter a white washed barn is from a living room furnished with browns and reds. Black especially "eats up" the light, so remember to keep the proportion of lighting fixtures correct with the colors being used.

Bulbs should be wiped with a damp cloth and dried thoroughly, frequently. If the bulbs have turned old and dark, put them in a closet and put a new one in the living room.

Considering that one pair of eyes much last a lifetime, periodic eye examinations and good home lighting is worth whatever it costs, and good lighting need not be elaborate or expensive. No matter what the lighting task, we'll always take better care of our eyes and have more fun sewing if we just follow our A.B.C.'s

Newlyweds Reside Here

ST. ANDREW'S CATHOLIC CHURCH, Rock Falls, was the setting for the spring wedding of Mary Stein and Jim Fritts.

Past Presidents' Parley of Legion Auxiliary Meets

A meeting of the Past Presidents Parley of the American Legion auxiliary was held recently in Loveland Community House with 15 members present. President, Mrs. Jean Chadwick opened the business session.

A letter was read from the department stressing the importance of the nurses procurement plan, under all branches of the Legion. The Past Presidents Parley plans to submit the name of a worthy Dixon high school June graduate for the scholarship. Also read was a letter from Mrs. Celia Voight who has been ill and is in a nursing home in Elgin and was some improved at the time of writing.

It was announced cards had been sent to Mrs. Connie Wood, who recently suffered a fall, breaking a bone in her ankle, and a sympathy card to Mrs. Oscar Berga, Amboy, whose husband died recently.

Several members will serve the luncheon when the auxiliary district board meets May 12, in the home of director, Mrs. H. F. Walder, Dixon. The 13th district meeting will be June 11, in Erie.

The president asked all members or anyone who has old jewelry to leave it at Erzinger's Shoe store, not later than May 6. These articles will be sent to the women veteran patients at Downey hospital.

Refreshments were served by hostesses Mesdames Minnie Miller, Mazie Kelly and Louise Withers. The next meeting will be in June.

Methodist Event

The Mother-Son banquet of the Methodist church will be held Thursday evening, May 12, at 6:30 o'clock at the church. All reservations must be made with Mrs. Ralph LaFevre or Mrs. Walter Krug no later than May 9.

Mrs. Robert Manchester and her committee have planned a fine program. The Christian church women will serve the dinner.

Mary Stein, Jim Fritts Say Vows in Rock Falls Church

Making their first home at 715 North Ottawa av., Dixon, are newlyweds, Mr. and Mrs. Jim Fritts. Their wedding, a mid-April event, took place in St. Andrew's Catholic church, Rock Falls. Mrs. Fritts is the former Mary Stein, daughter of the Martin J. Steins, Rock Falls. The bridegroom is the son of Mr. and Mrs. Fred Fritts, Rt. 4, Dixon. The Rev. Burwell E. Beddoes celebrated the 10 a.m. nuptial mass.

Miss Rita Fraser, Sterling, was nuptial organist, and Miss Joan Speaker, Sterling, soloist. Vocal selections included "On This Day," "Ave Maria," "Panis Angelicus" and "Mother Beloved." During the latter number, the bride presented a bouquet to the Blessed Mother.

The bride was lovely in a gown that was designed with a strapless sweetheart-shaped bodice of nylon tulle and Chantilly lace over satin, highlighted by a long sleeved lace jacket. The gown's bouffant ruffled net overskirt of floor length was designed over hoops of white bridal satin. Her illusion veil, fingertip length, was trimmed with bands of lace. The bride's semi-cascade bouquet of white carnations was centered by a lavender orchid and with a shower of lover's knots.

Miss Mary Kay Cavanaugh, Rock Falls, was maid of honor and the Misses Marilyn Helms, Rock Falls and Kay Fritts, Dixon, the bridegroom's sister, bridesmaids. Their gowns were styled with sweetheart shaped bodices of lace over taffeta. The full skirts of Chantilly lace over taffeta were worn with hoop underskirts. They had matching Eton jackets and carried colonial bouquets.

Bride's Attendants
Miss Cavanaugh wore orchid and carried orchid carnations and white daisies. Miss Helms, in aqua, carried light pink carnations and white daisies. Yellow fashioned the dress worn by Miss Fritts. Her flowers were yellow throatied carnations and white Marguerite daisies.

Attend Wedding
Out of town guests attending the wedding were from Polo, Champagne, Rantoul, Harmon, Freeport, Thomasboro, Grand Detour, Joliet, Ottawa, Aurora, Oregon, Ivesdale and Eau Claire, Wis.

Both the mother of the bride and bridegroom wore navy dresses with white accessories and white carnation corsages.

At Church Hall
A color scheme of orchid, yellow and aqua was used in decorating the church hall for the reception. Bernadette Ruhe, served the four tiered all white cake; Mrs. Robert Bradley had the bride's book and the serving and care of the gifts were in charge of Esther Vock, Nancy Innes, Barbara Hutten and Mary Ann McCormick, also Susie Rock and Judy Morris, Dixon.

The new Mr. and Mrs. Fritts are graduates of Newman high school with the class of 1954. The bride is employed by the USF&G Ins. Co., Dixon, and the bridegroom is an employee of the Medusa Portland Cement Co. He also attends Coppins Business college, Dixon.

When the newlyweds departed for a Wisconsin honeymoon, the bride donned a yellow linen suit with white accessories.

Trojans Get 11 Firsts in Dual Meet

Gasser, Mile Relay Win Firsts; Reeder, Hamill Score Ties

MENDOTA — (Special) — The Mendota Trojans scored 11 firsts in running up a 75-42 victory over the Dixon track team here yesterday.

However, Dixon's freshman-sophomore team saved some consolation for the Dukes by scoring an 84 1/2-38 1/2 victory over the Trojan yearlings.

Several fine individual performances were turned in, including a neat 2:08.2 half mile jaunt by Dixon's Rudy Gasser in his second time around the 880 yard distance. Coach Art Bowers reported that Gasser led all the way and had to buck a stiff wind in the back stretch.

Art Ehlers of Mendota again demonstrated his command of the discus as he heaved the disc 154' 3 1/2".

Jim Brown of Mendota blazed down the track in the 100 yard dash to be recorded in 10.2 and then turned in a .33 time in the 440.

Dixon won only three events. Besides Gasser's victory in the 880, the mile relay team of Bill Smith, Gasser, Bill Beamblossom and Otto Gerlach won as did Gary Reeder and Bob Hamill who tied for the high jump.

A tight mile race between Beamblossom of Dixon and Sanderger of Mendota developed with Beamblossom just losing out.

Denny Kline and Mike Phillips were double winners in the frosh-soph meet for Dixon. Phillips took the 880 yard run and the mile while Kline won both the high and low hurdles. Barry Henderson won the 100, Paul Akerman won the pole vault and Bill Bivins won the shot for Dixon. The Duke 440 and 880 yard relay teams also won.

'New Attitude' Is Keeping Bruins in NL Pennant Race
NEW YORK (AP)—What's keeping the Chicago Cubs in the first division?

"A new attitude and a new spirit," said manager Stan Hack, whose surprising Cubs were second place in the National League today on the wings of a four-game winning streak.

"One of the big differences between this and last year's club is that we are winning the close ones. Last year we had nearly all of the one-run decisions go against us."

Morrison Trackmen Top Amboy

C. Koch, Adwell, Donoho Win Only 1st for Clippers

MORRISON — (Special) — Morrison turned up nine firsts in scoring a triangular track victory over Amboy and Newman here Tuesday.

The Mustangs counted up 104 points to 66 1/2 for Amboy and 19 1/2 for Newman.

Amboy racked up three firsts with Charlie Koch winning the shot put, Jim Donoho taking the 100 yard dash and Dave Adwell scoring in the 220 yard dash.

Newman's Murphy won the broad jump and the rest of the firsts went to Morrison.

Morrison's Zneidma was the only double winner of the meet, taking firsts in both the low hurdles and the high jump.

Van Dyke of Morrison set a new school record in the pole vault when he cleared 11' 6 1/2" to beat out Don Koch of Amboy. It was the first time Koch has lost this season.

Amboy won the frosh-soph meet with 92 1/2 points to 89 1/2 points for Morrison. Newman scored one point.

Robinson Resumes Comeback Tonight
DETROIT (AP)—Sugar Ray Robinson's comeback campaign tonight is scheduled for 10 non-televized rounds against Garth Panter of Salt Lake City, a familiar TV performer who has lost six of his last seven starts.

In his heyday as middleweight champion, Robinson could have whipped Panter with one hand. The result tonight is a little less certain.

Robinson opened his comeback at Detroit in January with a six-round kayo of Joe Ringdane. After a defeat and two decisions in three more bouts, nothing has indicated that Robinson has regained any considerable part of the wonderful skill he had while ruling the world's welterweights and middleweights.

Princeton Wins Big Four Meet; Three Records Set

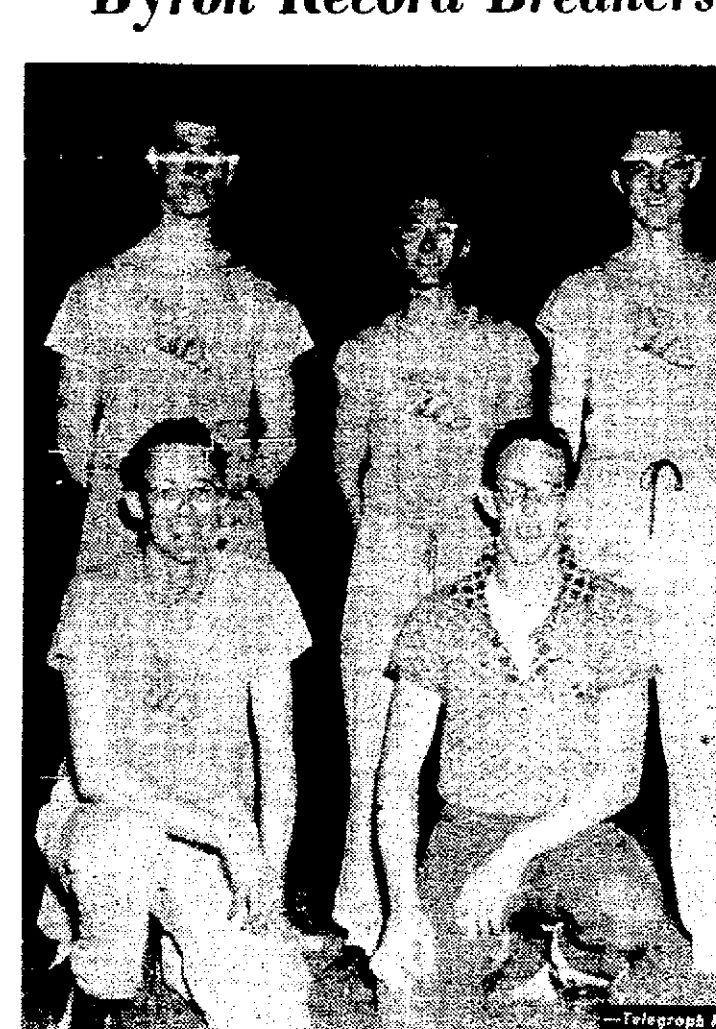

PRINCETON — (Special) — Scoring first and second in the 880 yard run and first in the 880 yard varsity relay, Princeton pulled safely in front to win the Big Four track meet here Tuesday.

With only two events remaining, Princeton held a 72 1/2 to 70 1/2 lead over Walnut. But the Tigers came through with Reed finishing first in the 880 and Tornow second to give the Tigers the victory.

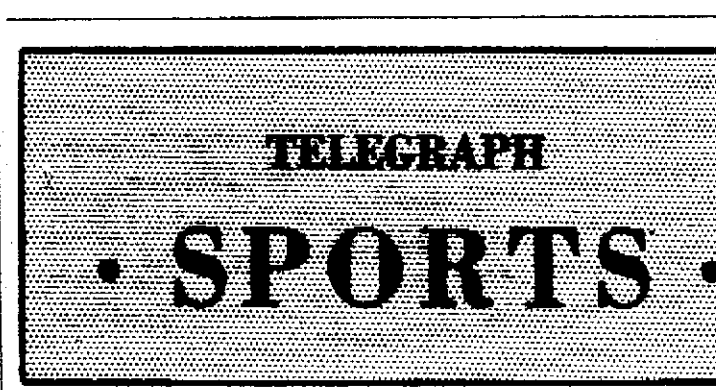

The final score showed Princeton first with 86 1/2 points, Walnut second with 74 1/2 points and Hall third with 43 points. DePue, the fourth member of the Big Four, does not compete in track.

Three new records were set. Joe Hassler of Walnut set the mark in the shot put with a 51' 11 1/2" heave; Forrest Finn reset the standard in the 440 yard run at 51.9, and Lew Flinn set the record at 21 seconds in the low hurdles.

Byron Record Breakers

THESE FIVE BYRON HIGH SCHOOL track team accounted for the only three records broken in the Route 72 conference track meet Tuesday. In the front, Allen Cain, left, set the 220-yard record in the preliminaries at 24 seconds, and Marvin Dennis, right, set the mile record in 4:44.1. Dennis and the three boys in the back, Bob Heidenreich, Dave Johnson and Roger Reverts, set the mile relay mark at 3:51.7.

Hubs Take First In Triangle Meet

ROCHELLE (Special) — The Rochelle Hubs showed strength in the field events and got enough help from Mt. Morris in the running events to turn back the Oregon Hawks and the Mounters in a triangular meet here Tuesday.

Rochelle racked up 64 1/2 points to 51 1/2 for Oregon and 32 1/2 for Mt. Morris.

Oregon's Chuck Cleaver, with a first in the high jump, was the only one to break Rochelle's strangle hold on the field events as Ron Hill won both the shot and the discus while Dave Pfoff won the pole vault and Clegg won the broad jump.

In the track events, Rochelle won only in the mile where Rog Hill came home first and in the 880 yard relay.

But Oregon was hurt when Don Henderson of Mt. Morris copped the 880 yard run and the low hurdles went to Bill Allenfort of the Mounters.

Bob Reidesel took the 100 and 220 yard dashes for Oregon and Dick Haas captured the 440 yard dash and the high hurdles. Oregon also won the mile relay.

The summary:

Duke Golfers In 14-8 Win At Rock Falls

ROCK FALLS — (Special) — With all golfers running into trouble, the Dixon Dukes still were able to retain their unbeaten string here as they turned back the Rock Falls linksmen, 14-8.

Jim Schroeder fired a 44 to take medal honors while John Peterson had a 46. Joe Weitzel had a 47 and Ulley Noble had a 49 to wind up as the only Duke golfers able to break 50.

Seven of the 11 Dixon players won both the match and medal play of their matches to account for Dixon's 14 points.

The victory marked the fourth win in a row for Dixon and their third over North Central Illinois conference competition.

Mile in 3:40 Is Possibility, Says Professor

BERKELEY, Calif. (AP)—Clip 18 full seconds off the world record for the mile run? Impossible.

"I wouldn't say so," contradicts Dr. Franklin M. Henry, a University of California professor of physical education.

The scientist, who never ran a foot race in his life, has compiled a list of times for the mile dating back 90 years.

The first recorded time for the mile is 4 minutes 36.5 seconds by Richard Webster of England back in 1865. That was 38.5 seconds slower than the present mark of 3:58 set by Australian John Landy last June 21.

Dr. Henry's graph curve shows times dropping steadily for 30 years, with nearly 30 seconds chipped off when the record was 4 minutes 15 seconds in 1895. Then the graph levels off for 18 more years until John Paul Jones ran the distance in 4:14.5 in 1913.

The next few years reveal consistent record-chipping, capped by Paavo Nurmi's 4:10.4 in 1923—and there's been no levelling off since. Runners like Jules Ladoumeque, Jack Lovelock, Glenn Cunningham, Sidney Wooderson, Arne Anderson and Gunder Haegg worked the mark down to 4 minutes 14 seconds in the 22 years until 1945.

There the record stood until Dr. Roger Bamister cracked the four-minute barrier with his 3:59.4 at Oxford last May, only to see it fall before Landy's 3:58 a month later.

"So you see," says Dr. Henry, "the end most certainly is not in sight. In my opinion, you can't say today that a 3:40 mile is impossible."

Digging Divots
Sixty-one golfers turned out for the second regular men's night session at the Dixon country club Tuesday night as Darrel Reis fired a one over par 35 to lead the golfing parade.

Frank Lessner was second in line with a 37 followed by Fred Meinke, Jr., Harold Green, Bill Mooney, Arch Sample and Wilson Dysart with 38s and Ed O'Malley with a 39.

Thirty golfers were blind bogey winners.

Cain, Dennis, Mile Relay Team Set Loop Records

By NORM JOLLOW
Telegraph Sports Editor

POLO — Byron's Tigers racked up 65 1/2 points to take the Route 72 conference track title and picked up the only three varsity records of the night while they were at it here Tuesday night.

The Tigers beat out defending champion Forrester which finished second with 72 1/2 points. Stillman Valley was third with 34 1/2 points while Leaf River had 13 and Winnebago 1 1/2.

Forrester indicated it would be back in the scramble in years to come but not without trouble from Stillman Valley. Forrester won the frosh soph crown by the thin margin of one-half point. The Cards scored 52 points to 51 1/2 for Stillman Valley. Byron was third with 36 points while Leaf River had 24 1/2 and Winnebago did not score.

Marvin Dennis, Allen Cain and the mile relay team were the record breakers. Dennis ran the mile in 4:44.1 to eclipse the 4:47.5 time set by Shevmon of Stillman Valley in 1948. Cain broke the 220 yard standard in the preliminaries, being blocked at 24 seconds flat to break the mark set by Cassell of Byron in 1948 at 24.25.

Eight Firsts
The mile relay team of Dave Johnson, Roger Reverts, Bob Heidenreich and Dennis clipped better than 11 seconds off the record set by Stillman Valley in 1953. The old mark was 4:02.5 while Byron was clocked at 3:51.7 Tuesday night.

Byron racked up eight firsts to roll up its victory. Forrester took four firsts while Stillman Valley collected the other two.

Cain won three events, the 220, low hurdles and the broad jump. Jim Lewis won the high hurdles and the 880 yard run and Hal Smith won the high jump and pole vault for Forrester. Hurt captured both Stillman Valley first, the 100 and the shot.

Levis lost a possible chance for a record in the high hurdles through an error by track officials. Inadvertently, one set of hurdles was left off and the distance was shortened to 110 yards instead of the regulation 120 yards. Lewis was clocked at 1:45 for the short distance. The 120 yard record is 1:56 by Alhafer of Forrester in 1952.

Nip and Tuck Duel
In a real nip and tuck duel for the frosh-soph title, Stillman Valley lost the crown by a half point. A disqualification in the 880 yard run apparently proved the difference. Yankus of Stillman was disqualified for cutting in too soon at the pole in the opening lap.

Warren Ippen of Stillman established two records in the yearling meet. Ippen won the 220 in 23.2 to crack the mark by Bosercher of Stillman Valley in 1954 at 25.5, and he captured the 440 yard dash in 56.7 to reset the mark established by Bosercher in 1954 at 57.8.

It's Performance That Counts!

CAPTAIN I. R. OLSON tells why he uses Flite-Fuel

"I'm a Captain for Continental Air Lines. We use Phillips 66 Aviation Gasoline regularly in our airplanes. It contains the super-power component Di-isopropyl, and that makes it a very high performance fuel."

"In my car, I like to get the best performance possible so I use Phillips 66 FLITE-FUEL. It's the only automobile gasoline that contains added Di-isopropyl. It gives me what I want...power, smoothness and long mileage."

For super performance, fill up with **Flite-Fuel**

HIGHER OCTANE! New FLITE-FUEL is the only gasoline to which is added the super aviation fuel component Di-isopropyl. And today's FLITE-FUEL is better than ever. Both new FLITE-FUEL and new Phillips 66 Gasoline have been fortified for increased power, higher octane, longer mileage. Fill up at your Phillips 66 Dealer's.

Pirates Causing Trouble In National League Again

Bucs Blank Braves, 4-0; Cubs Topple Giants, 6-0

By the Associated Press
Branch Rickey's Pittsburgh "Fuzz Kids" are now the "Nuisance Kids" of the National League.

While the taunting New York Giants and Milwaukee Braves are trying to maintain complete calm in the face of continuing reverses, the headless Pirates are kicking up sawdust all over the place.

They have won three games in a row, and four of the last five. They're playing as if they really believe in Rickey's "five-year plan," which had 1955 fixed as the date for the pennant.

Of course, nobody seriously expects a pennant from Pittsburgh this soon. But they can expect surprises. The Pirates are young and brash—and winning.

22 Scoreless Innings
Tuesday night, a 29-year-old Baltimore castoff, Dick Littlefield, shut out the Milwaukee Braves on seven hits 4-0, stretching the Braves' string of scoreless innings to 22.

The Braves dropped seven full games back of the idle Brooklyn Dodgers and their only comfort was that the champion New York Giants were still another full game farther back.

The Giants were whitewashed by the Chicago Cubs' Bob Rush,

who fashioned a tidy four-hitter. Bob Speake and Dee Fondy, with three triples between them, battered the Giants' ace Jim Hearn. The score was 6-0.

In the only other National League game, big Ted Kluszewski hit to of Cincinnati's home runs to down the Philadelphia Phillies 7-5.

Sox Trim Nats
In the American League, the Cleveland Indians whipped the New York Yankees 7-4 in their first head-to-head clash of the season. The Indians thus managed to hold their slender half-game lead over the pressing Detroit Tigers, who topped the Boston Red Sox 4-2 on a two-run homer by the 20-year-old sophomore sensation Al Kaline.

Billy Hoelt won his third straight for the Tigers. The Kansas City Athletics beat the Baltimore Orioles 4-3 on a three-run homer by Bill Wilson in the eighth inning. The Chicago White Sox trimmed the Washington Senators 5-3.

Littlefield gave the Pirates their

third straight top-flight pitching performance in beating the Braves. Ronnie Kline and young Bob Purkey did a similar workmanlike job on the St. Louis Cardinals earlier this week.

Rush Masterful

Bob Rush kept the Cubs on Brooklyn's neck, but 5½ games back in second place, with a masterful pitching performance. Don Mueller, with a double and a single, and Monte Irvin, with two singles, were the only Giants to hit him and Mueller was the only one to get as far as second—with his double in the ninth.

Catcher Yogi Berra proved the "goat" of the Yankees loss to Cleveland. With the score tied 4-4 as the result of homers by Cleveland's Al Smith and Ralph Kiner and the Yanks' Mickey Mantle, Yogi muffed a throw-in which led to three unearned runs. Mike Garcia was the winning pitcher, Ed Lopat the loser.

At Kansas City, Wilson's three-run homer in the eighth saddled Irv Palica, Baltimore right-hander, with his third defeat.

NEW SUB REGULATION DISCUSSED
Big 10 Divided on Rule

CHICAGO (AP)—Big Ten football coaches have formed divided opinions during spring drills on the new rule which permits a player to leave and return to a game once each quarter.

Woody Hayes, whose unbeaten Ohio State Buckeyes last season swept to the Big Ten title, No. 1 national ranking and the Rose Bowl championship, says the new regulation "is a step in the right direction—platooning."

"I would go all the way and favor the return to unlimited substitution, but the new rule will help and we plan to take full advantage of the change," he said in an Associated Press survey.

Bennie Oosterbaan of Michigan and Bernie Crummins of Indiana have different slants on the impact of the rule.

Oosterbaan, whose Wolverines have been made a prime 1955 title contender in the spring form chart, said "It's not going to change the game very much."

He, and all other coaches, agree

that injuries may be reduced for players who are shaken up can be called to the sidelines for check-ups before returning to the field.

"It will be a safer and better game," Crummins insisted. "It will help the caliber of the game by giving the coach a chance to talk to his quarterback and suggest plays which might help the particular situation at hand. The same help can be given to all other players as problems arise."

Forest Evashevski has been experimenting at Iowa with two distinct types of offense this spring—the split T and single wing—and feels the new rule will help.

"At this time it appears that we are in no position to 'out-personnel' anyone in the Big Ten," he said. "I doubt if we can win the title with just one type of offense, so we are going to try something better. The new rule probably will help Iowa's two-offense attack. It certainly will permit us to use more kids, and I think this will be to our advantage."

Stu Holcomb of Purdue summed it up this way: "It will make it possible to get more effective use out of strictly offensive players as well as provide needed rest of regulars who may be momentarily exhausted or shaken up."

Also drawing comment was the new regulation that permits the ball-holder on extra points and field goal attempts to run or pass the ball rather than being ineligible in the play because his knee touches the ground.

Crummins summed up the general opinion like this: "The rule shouldn't have much effect toward trickery on conversion attempts, certainly not on those teams with good place-kickers. On field goal attempts, however, the odds are greater against conversion and there is more room and opportunity to evolve something special out of a fake attempt."

"In any case, the rule will mean there is one more player to be watched."

Ohio Wins First Little 8 Conference Meet on 81 Pts.

SHREVEPORT—(Special)—The Ohio Bulldogs, scoring heavily in the running and relay events, scored their first Little Eight conference track victory of the season Tuesday.

The Bulldogs racked up 81 points to 67 for Sheffield and 11 for Bureau.

The Ohioans took nine of the 15 first places. They won all the straight running events, the three relays and scored first in the shot put.

Dick Anderson, scoring in the 100 and 200 yard dashes, was the only Ohio double winner while Tom Gugerty won the 440 yard dash and tied for first in the high jump. Bob Hensel, Tom McGraw and Ron Morgensen also scored victories for Ohio.

Flying Fury Unimpressive In Trial Win
LOUISVILLE, Ky. (AP)—The field for Saturday's running of the \$125,000 added Kentucky Derby today stood at eight definite and two probable starters following Flying Fury's thrilling but unimpressive victory in the Derby Trial.

On the definite list, as they have been all week, are Nashua, Summer Tan, Swaps, Racing Fool, Flying Fury, Jean's Joe, Blue Lem and Honeys Alibi. The two probabilities are Nabesna and Trim Destiny.

Should all 10 start the race will gross \$152,000 with the winner taking down a net of \$105,000. The race is the richest in its 81 years.

Post time is 4:30 p.m. central daylight time. From 4:15 to 4:45 the race will be carried on 212 radio and 163 television stations by the Columbia Broadcasting System.

There was nothing in the result of the Trial Tuesday to jar any of the followers of Nashua and Summer Tan.

Pan-mutuel officials predicted the big bay from William Woodward's Belair Stud will open at 4 to 5 and possibly go off at even shorter odds. Nashua picked up additional supporters Tuesday when he stepped a mile in one minute, 37.3 seconds and worked out the full Derby distance of a mile and a quarter in two minutes, 5.35 seconds. The Derby record of 2:01.25 was set by Whirlaway in 1941.

Summer Tan was quoted at 2 to 1 with Swaps third in line at 6 to 1. Flying Fury was clocked in 1:38 as he beat the Murcan Stable's Jean's Joe by a nose. That time was two-fifths of a second slower than Nashua worked.

The surprise of the trial was the third place gained by Clifford Mooers' Texas-owned Nabesna.

There's Been a Last Minute Change in the speaker for the annual Chamber of Commerce all-sports banquet at Amboy. Don Sheffer, Princeton basketball coach, scheduled to speak, apparently will be right in Princeton when the Amboy banquet is held. The reason: Princeton is holding its own all-sports banquet tonight with Bucky O'Connor, Iowa basketball coach, as the speaker.

We heard one rumor that Sheffer was on his way to Chicago to be interviewed for a coaching position in Puerto Rico. There is some truth to this. Sheffer may take a summer athletic post in Puerto Rico, but apparently he'll be back in Princeton when the cage season rolls around again next year.

THE CHAMBER OF COMMERCE at Amboy reported that Gil Love, Ottawa high school basketball coach, will be the substitute speaker.

A highlight of the Clipper banquet program will be the awarding of the outstanding senior award sponsored by the VFW. This is awarded to the senior boy who has completed every season of every sport he has participated in and is based on scholarship, participation, ability, desire and the vote of students, faculty and coaches.

RAY JOHNSON, PRESIDENT OF THE DIXON CHURCH Softball League, has been granted a temporary leave of absence from that post because he is being transferred to Belvidere for a while, it was learned at the league meeting last night. During Johnson's absence, Wink McReynolds, vice-president, will be in charge.

Eleven churches will be represented in the 10-team league this year with Second Baptist taking over the vacancy created when Presbyterian and Four Square combined because of a lack of players to form separate teams.

THE OTHER MEMBERS of the league are defending champion Grace, First Baptist of Amboy, Methodist, St. Patrick, Brethren, Immanuel Lutheran and St. Paul's.

McReynolds reported that the league season will open May 24 and games will be played each Tuesday and Thursday.

RULES OF PLAY WERE FORMULATED for the coming season, McReynolds added. He also asked again for umpires, scorers and announcers for the league games.

IN HIS CAPACITY AS CHAIRMAN OF REYNOLDS field activities, McReynolds said that only teams which have contacted him are eligible to use the field for practice. Managers who have not contacted Wink may still do so. A regular schedule for use of the field is being drawn up.

Flying Fury Unimpressive In Trial Win

LOUISVILLE, Ky. (AP)—The field for Saturday's running of the \$125,000 added Kentucky Derby today stood at eight definite and two probable starters following Flying Fury's thrilling but unimpressive victory in the Derby Trial.

On the definite list, as they have been all week, are Nashua, Summer Tan, Swaps, Racing Fool, Flying Fury, Jean's Joe, Blue Lem and Honeys Alibi. The two probabilities are Nabesna and Trim Destiny.

Should all 10 start the race will gross \$152,000 with the winner taking down a net of \$105,000. The race is the richest in its 81 years.

Post time is 4:30 p.m. central daylight time. From 4:15 to 4:45 the race will be carried on 212 radio and 163 television stations by the Columbia Broadcasting System.

There was nothing in the result of the Trial Tuesday to jar any of the followers of Nashua and Summer Tan.

Pan-mutuel officials predicted the big bay from William Woodward's Belair Stud will open at 4 to 5 and possibly go off at even shorter odds. Nashua picked up additional supporters Tuesday when he stepped a mile in one minute, 37.3 seconds and worked out the full Derby distance of a mile and a quarter in two minutes, 5.35 seconds. The Derby record of 2:01.25 was set by Whirlaway in 1941.

Summer Tan was quoted at 2 to 1 with Swaps third in line at 6 to 1. Flying Fury was clocked in 1:38 as he beat the Murcan Stable's Jean's Joe by a nose. That time was two-fifths of a second slower than Nashua worked.

The surprise of the trial was the third place gained by Clifford Mooers' Texas-owned Nabesna.

There's Been a Last Minute Change in the speaker for the annual Chamber of Commerce all-sports banquet at Amboy. Don Sheffer, Princeton basketball coach, scheduled to speak, apparently will be right in Princeton when the Amboy banquet is held. The reason: Princeton is holding its own all-sports banquet tonight with Bucky O'Connor, Iowa basketball coach, as the speaker.

We heard one rumor that Sheffer was on his way to Chicago to be interviewed for a coaching position in Puerto Rico. There is some truth to this. Sheffer may take a summer athletic post in Puerto Rico, but apparently he'll be back in Princeton when the cage season rolls around again next year.

THE CHAMBER OF COMMERCE at Amboy reported that Gil Love, Ottawa high school basketball coach, will be the substitute speaker.

A highlight of the Clipper banquet program will be the awarding of the outstanding senior award sponsored by the VFW. This is awarded to the senior boy who has completed every season of every sport he has participated in and is based on scholarship, participation, ability, desire and the vote of students, faculty and coaches.

RAY JOHNSON, PRESIDENT OF THE DIXON CHURCH Softball League, has been granted a temporary leave of absence from that post because he is being transferred to Belvidere for a while, it was learned at the league meeting last night. During Johnson's absence, Wink McReynolds, vice-president, will be in charge.

Eleven churches will be represented in the 10-team league this year with Second Baptist taking over the vacancy created when Presbyterian and Four Square combined because of a lack of players to form separate teams.

THE OTHER MEMBERS of the league are defending champion Grace, First Baptist of Amboy, Methodist, St. Patrick, Brethren, Immanuel Lutheran and St. Paul's.

McReynolds reported that the league season will open May 24 and games will be played each Tuesday and Thursday.

RULES OF PLAY WERE FORMULATED for the coming season, McReynolds added. He also asked again for umpires, scorers and announcers for the league games.

IN HIS CAPACITY AS CHAIRMAN OF REYNOLDS field activities, McReynolds said that only teams which have contacted him are eligible to use the field for practice. Managers who have not contacted Wink may still do so. A regular schedule for use of the field is being drawn up.

Three Pay \$215 After Street Brawl

Police Magistrate Lawrence E. Boos today assessed fines totaling \$215 against three Dixon men arrested late Tuesday in a local tavern. The trio reportedly were drinking together.

Hugh Flynn, 24, 214 Willett Ave., was fined \$100 for resisting arrest, \$25 for disorderly conduct, and \$15 for being drunk and disorderly. Flynn was sitting out the fine in the county jail at last report.

Flynn reportedly threatened to wreck a local tavern when they refused to serve him, picked a fight on the street and tried to fight police officers when they arrested him at 9:15 p.m.

Phillip Sotelo, Jr., 20, no street address given, was fined \$50 for resisting arrest and \$15 for being drunk and disorderly. He also reportedly picked a fight on the street and tried to resist arrest by running away from the officers. He paid his fine.

Floyd "Babe" Walls, 21, 115 Crawford Ave., was fined \$10 for being drunk and disorderly. He was arrested at the police station when Officers Ernest Smallwood, Glen Camery and Dewey Gilbert brought in Flynn and Sotelo.

Franklin Grove Crash Victim Still 'Critical'

A Franklin Grove man, Donald Roop, 43, seriously injured Tuesday in a car-train crash in Nelson, is still listed as in "critical" condition today in Dixon KSB hospital. A hospital spokesman said that he has improved slightly, however.

Roop was reportedly pinned under the wreckage of the car he was driving when his car was struck by a Chicago and North-Western locomotive about 5:30 a. m. He suffered crushing injuries to his chest, arm and leg.

The impact carried Roop's car 100 feet down the crossing. Witnesses told investigating officers that the manually operated crossing gates had not been lowered when Roop started across the tracks.

Funeral Rites for Ottawa Publisher Scheduled Friday

OTTAWA, Ill. (AP)—Funeral services will be held Friday afternoon for Fred A. Sapp, 78, publisher of the Ottawa Daily Republican Times, who died Tuesday.

Ashton Resident Escapes Injury

An Ashton man, Albert Krigbaum, apparently escaped serious injury early today when the car he was driving overturned in a ditch near Rochelle on Alt. Rt. 30. State Police Sgt. Albert Barauski reported that the mishap occurred about a half mile west of Rochelle at 7 a. m. Krigbaum reportedly was attempting to pass a truck and was forced into the ditch on the left hand side of the road when the truck started to turn left off the highway.

Screen Applicants For Big Brother, Sister Movement

The Rev. E. E. Schaefer has been named president of the screening committee for the Big Brothers and Sisters Movement in Dixon. The Rev. Percy Carter is secretary.

The group discussed the screening method and training of applicants, and asked the secretary to draw up application blanks which will be distributed to churches. Those interested in taking part in the program may receive the applications from local ministers.

The group will meet again May 19 at 8 p. m. in the home of Ralph Clark, 410 N. Ottawa Ave.

Police Court

Police Magistrate Lawrence E. Boos assessed fines totaling \$15 Tuesday and today against men from Sterling and Rock Falls.

Clyde D. Winken, 30, Sterling, was fined \$10 for speeding. He was arrested late Tuesday by Officer Ernest Smallwood for driving 30 miles an hour on the Galena Avenue bridge.

Eugene E. McCarty, 38, Rock Falls, was fined \$5 today for being drunk on a public highway. He was arrested late Tuesday on Alt. Rt. 30 by Sheriff John Stouffer. He was returned to jail today when he refused to pay the fine.

EXPECTING A BIG SALE: Lions club members (left to right) Dave Ames, president-elect and chairman of the Rose Day sale; Walter Knack, vice-president; Clint Maslin, deputy district governor, and president of the Rockford club, and Robert Swaney, retiring president, are grouped around an item the local members will be selling in force during the next three weeks. The members are attempting to sell 600 dozen roses prior to "Rose Day" June 4. The proceeds will go to the Lions' charity for the blind.

Lions Running For the Roses Blind to Benefit From Sale of Pretty Flowers

Members of the Dixon Lions Club will attempt to sell 600 dozen red roses at \$3 a dozen in the Dixon area during the next three weeks.

That's the quota set by David Ames, president-elect and chairman of the Rose Day drive. Rose Day in Dixon will be observed June 4.

Ames reminded the members Tuesday at their weekly luncheon that they will be selling charity rather than flowers. The proceeds will be turned over to Lions' fund for the blind.

Each member was given a book

Public School Band Concert To Be Friday

The bands of the Dixon public schools will present their annual Spring Concert at 8 p. m. Friday in the Dixon high school auditorium. The bands are under the direction of Bardell Bowman and Robert L'Heureux.

The 116-piece grade school band will open the concert. Following the orchestra, composed of 38 grade school band members, and the 72-piece advanced band will play.

A special feature will be a cornet trio, consisting of Carol Lee Horton, Larry Black and Dick Burner.

The Dukes of Dixie, a jazz organization, will play during intermission. Its members include: Dave and Dick Thomas, George Rolfe, Dick Jenks, Jim Schroeder, Charles Lesage and Dean Hey. The 74-piece Dixon high school concert band will climax the evening's performance. They will present a varied selection of music, according to L'Heureux.

Dale Wicherts will play an accordion solo with a band accompaniment. Jim Burbank, senior student director, will also direct a march number.

Tickets may be purchased from any member of the grade or high school bands or may be obtained at the box office.

Engineers Plan Dinner-Dance

The Rock River Chapter of the Illinois Society of Professional Engineers will hold a dinner-dance in the Plum Hollow Country Club at 7 p. m. Saturday for members and guests.

Music will be furnished by Myrtle Bishop's orchestra. Reservations should be made with C. Clausen immediately.

To Head Midwest Stock Exchange

George E. Barnes, senior partner of Wayne Hemmer & Co., Chicago, members of the Midwest, New York and American stock exchanges, was nominated today to serve as chairman of the board of the Midwest Stock Exchange. He is well known in the Dixon area. This was announced by John R. Burdick, chairman of the nominating committee, and is tantamount to election. Guybert M. Phillips, Caldwell, Phillips Co., St. Paul, Minnesota, was nominated vice chairman of the board.

Barnes is a former governor and chairman of the executive committee of the Midwest exchange and former vice president and member of the board of the Association of Stock Exchange Firms. He is author of the tax plan to give relief from double taxation of dividends and the elimination of filing returns by the small wage earner. Barnes served with both state and national tax committees. He conceived and developed the present money-involvement commission table which was adopted by the New York and other stock exchanges throughout the country. He has been active in a broad field of civic work, particularly the Community Fund of Chicago and is a member of the national budget committee of the Community Chest and Councils of America. He is also director of the Suburban Trust & Savings Bank, Four Wheel Drive Auto Co. and the LaSalle Extension University.

At present florist prices, a dozen roses retails for \$4. The roses will cost the club \$1.50 a dozen.

General chairman for the event are Ames and present Lions Club proxy, Robert Swaney. The various team captains are: C. Jones Earp, L. W. Hinkle, Paul Johns, E. W. Merrick, Ralph M. Ritchie, Paul Schmitt, Robert Schmitt, George Swanson, Norman Wallin and Allen Whitmer.

Dixon Jaycees' Program Cited Youth Welfare Projects Score First in State

The Dixon Junior Chamber of Commerce has been named tops in the state (of cities of 10,000 to 25,000 population) in the field of youth welfare activities, according to Warren Walder, local president.

As a result, the local Jaycee chapter will enter national competition in Atlanta, Ga., June 20. The award was made for work done between May 1, 1954, and May 1, 1955.

The selection was announced Sunday during the state Jaycee convention held in the Morrison hotel, Chicago. Walder explained that only one first place certificate was awarded in each population class.

The rating involved three phases: General planning and procedure, such a program.

Also under participation, some 65 members, or 89 per cent of the membership donated 5,600 man hours carrying out the project.

As a result of the program, the local chapter feels that it has "contributed substantially to the betterment and well being of our young people."

It also feels that youth now has an opportunity to acquire early in life a sense of leadership, responsibility, and sportsmanship through participation in the program.

Under general planning and procedure was: Nature and purpose of the project, committee organization and steps in completion. Projects completed during the year included: Junior baseball program, basketball banquet, variety show, donkey baseball, girls professional baseball, "Operation Ice Box" and "Steer Round-up" and the orphans tour.

Under participation, the local

chapter rated high in initiative and enterprise. There had been no regularly scheduled junior sports program in the community until the Jaycees conceived the idea of formation, financing and conduct-

Farm—the President said the administration program of flexible farm price supports, which went into effect this year, is good legislation but so far there has not been adequate time for it to prove itself.

Speaking out against the House bill, now up for debate, providing for a return to a rigid price support program, the President said all of what he termed the farm squeeze occurred under that old program.

Highway program—the President said he still is standing by his plan for a 101-billion-dollar highway construction program, and added that so far as he knows the governors of the states still are standing by it, too.

A Senate subcommittee headed by Sen. Gore (D-Tenn.) has shelved the administration program in favor of a substitute plan.

Quemoy and Matsu—asked what the yardstick will be if he should be faced with a decision whether to defend the Chinese Nationalist off-shore islands of Quemoy and Matsu. Eisenhower indicated he would try to decide whether any attack by the Chinese Reds was aimed exclusively at those islands or, in the long run, at Formosa itself.

Administrators To Conference

Six Dixon school administrators will attend the fifth annual meeting of the Northern Illinois Conference on Supervision at Northern Illinois State Teachers College, DeKalb, Friday.

The Conference, an organization of school administrators, will have for its theme "Needed Concepts in Supervision—Democracy and Mental Health."

Attending will be A. H. Lancaster, Dixon superintendent; Sherwood Dees, assistant superintendent, and Principals Edith Scholl, Jefferson School; Mollie Duffy, Washington School; Mary Alice Buchanan, South Central School, and Esther Barton, Lincoln School. Supt. Lancaster is president of the Conference.

Speakers will include Nicholas Nyaradi, chairman of the department of economics, Bradley University, and Dr. John A. Schindler, of the Monroe Clinic, Monroe, Wis.

Stratton to Speak

PARIS, Ill. (AP)—Gov. Stratton will speak when Paris businessmen and merchants stage their Town and Country Day festival in Twin Lakes Park, sponsors of their affair announced Tuesday. The Town and Country Day is scheduled June 21.

Survivor of Bank Robbery Plot Indicted

KAMPSVILLE, Ill. (U. P.) — Eugene C. Hubbard, 26-year-old survivor of a thwarted bank robbery plot, was indicted by a federal grand jury Tuesday on six counts, four of which carry a possible death penalty.

One count of the indictment returned by a Springfield grand jury under the federal bank robbery act accused Hubbard, in trying to avoid capture, "killed and murdered" Harry Waldheuser, 63-year-old cashier at the Bank of Kampsville.

Held Captive

Waldheuser and his wife, Lela, were held captive in their home by Hubbard and his accomplice, Thomas Underwood, 26, until townspeople learned of their plight Sunday night and sounded an alert.

This started a chain of events which resulted in a wild flight under gunfire that ended when the ex-convicts' commandeered car overturned on a curve at about 100 miles an hour, killing Waldheuser and Underwood.

The cashier's wife and Hubbard were seriously injured. Hubbard is held under guard at a Carrollton

ing the 12-hour siege, Miller repeatedly told besiegers: "I will prevent any intruder from crossing my threshold."

Two hours after the siege began, the Miller children, David, 11, and the twins, Helen and Josephine, 10, came home from school, ate lunch and went back.

When school was through for the day, however, authorities sent the youngsters to nearby private home, where they remained for the night.

Answers Phone

Mrs. Miller spent the siege making and answering phone calls. She talked willingly over the telephone with newsmen, telling one caller that her husband "has got a lot of ammunition. We can hold out a long time."

When Mrs. Miller appeared to answer the indictment charging her with influencing young men against the draft, Federal Judge Ernest W. Gibson ruled her courtroom behavior indicated a psychiatric examination.

She was sent to Brattleboro Reformatory, where psychiatrists adjudged her insane.

stairs windows of the Miller home. Ten minutes later, the couple appeared at an upstairs window.

Miller crawled through the window onto a porch roof.

"All right, fellows," he called. He threw his rifle to the ground. State troopers swarmed on the roof and handcuffed him.

Wife Collapses

Mrs. Miller collapsed across the window sill, overcome by gas, and was taken unconscious from the roof.

After doctors revived her on the lawn she smiled at her husband. He smiled back.

Mrs. Miller was taken to Rutland Hospital where Dr. L. Crawford Russell said she had suffered no ill effects from the gas barrage.

Miller was taken to Windsor County Jail. U. S. Marshal Perry said charges probably would be lodged against him.

Mate Adjudged Insane; Gun Holds Off Police

BETHEL, Vt. (U. P.) — A barrage of tear gas has ended the holdout of gun-toting Justice of the Peace Manuel Miller, 47, who stood off federal and state authorities for 12 hours Tuesday in a futile attempt to keep his wife out of a mental hospital.

Miller and his wife, Lucille, 44, parents of three children, surrendered Tuesday night in their gas-filled home — she to face confinement in St. Elizabeth's Hospital, Washington, D.C.; he to face as yet undetermined federal charges.

The mild-mannered Miller, a school committeeman and former selectman, began the siege at 10 a.m. when he refused admittance to U. S. Marshal Dewey H. Perry

bearing a federal order for Mrs. Miller's commitment.

Adjudged Insane

Ms. Miller, publisher of a mimeographed anti-Communist leaflet called The Green Mountain Rifleman, was adjudged insane in Federal Court at Burlington April 18 as the outgrowth of an indictment charging her with influencing young men to evade the draft.

Throughout the day, Miller, armed with a rifle, defied all efforts by authorities to remove his wife from their two-story frame home. He ordered out Vermont Public Safety Commissioner William H. Baumann at gunpoint.

After 12 hours siege authorities fired tear gas shells through down-

hospital. Mrs. Waldheuser, because of her condition, doesn't know of her husband's death.

A state warrant charging Hubbard with armed robbery also was issued and the Hardin County prosecutor said he would ask the county grand jury to vote kidnapping and murder indictments Monday.

Find Loot

Police found articles valued at about \$3,500 identified as loot from several Illinois and Missouri burglaries in Hubbard's St. Louis apartment. This included two nickel-plate rifles, two cash boxes, a motion picture projector, tools and a large supply of postage stamps.

The robbers had planned to force Waldheuser to accompany them to the bank and open the vault. About 30 townspeople had surrounded the house before the pair fled with the couple as hostages.

Hospital Attendant Indicted

DANVILLE, Ill. (U)—An attend-
ant at a veterans hospital has been
indicted for the death of a patient.
Robert White Gassaway, 32, of
Danville was charged Tuesday with
voluntary manslaughter, aggravated as-

sault and the violation of a pa-
tient's civil rights.
The FBI told the federal grand
jury that Ralph R. Haverstick, 35,
of De Soto, Mo., suffered fatal in-
juries when assaulted Feb. 23.
Haverstick, a World War II veter-
an who was housed in a ward for
disturbed patients, died March 30.
Two other attendants at the Dan-
ville hospital—Andrew Joseph So-
tak, 39, of nearby Tilton, and Cal-
vin Monroe Johnson, 44, of Dan-
ville—were absolved by the grand
jury.

Mother to Wait, Pray For Her Son

WASHINGTON (U)—“The only
thing I guess we can do now is
wait and pray,” said Mrs. Addie
Rigney, 72, after a day of top-
level conferences about the wel-
fare of her son.
Mrs. Rigney flew to Washington

from Chicago Tuesday to see what
could be done about her son, the
Rev. Harold Rigney, 52, a Roman
Catholic priest who has been im-
prisoned for nearly four years by
the Chinese Communists.
She talked with Robert Murphy,
deputy undersecretary of state,
who reportedly told her the United
States is intensifying prisoner ne-
gotiations at Geneva, Switzerland,
and in the United Nations.
Her traveling companion, Joseph
Meegan of Chicago, said he was
satisfied the State Department “is
doing everything it can to bring
about the release of Father Rigney.”

Over Expansion Theory Is Upset Population Increase Is Boosting Demands

By SAM DAWSON
NEW YORK (U)—All that talk
about American industry being
over expanded—is it outdated al-
ready?
Some top industrialists are say-
ing so today and calling for fur-
ther increases in the capacity of
mills and factories to keep in step
with the increased consumer de-
mand they foresee.
Just one year ago it was fa-
shionable in some circles to say
that the great postwar spurt of
building new plants and buying
new equipment had given the
United States a production capa-
city well in excess of current civil-
ian consumer demand.
Expected Gap
It would be quite some time,
they said, before civilian demand
— if unsupported by an additional
huge defense production — would

catch up and keep all those fa-
cilities busy.
But now plans for future expan-
sion are being announced by the
corporate leaders in many indus-
tries.
The basic industry steel is a
good example of this switch over
in thinking.
Increased One-Fourth
Between 1950 and 1954 it in-
creased its capacity by one fourth.
Last year the leaders in the in-
dustry were saying that present
capacity of 124,300,000 tons a year
should be enough for at least five
years more.
This week the nation's steel mills
are set to turn out 2,328,000 tons,
according to the American Iron
& Steel Institute. This would top
the record set in March 1953.
And today at least five of the
top men in the industry are on
record as saying another round of
building more mills and upgrading
old equipment must be started.
More of Everything
The reason: The steady increase
in the nation's population and —
more importantly — the increase
in the standard of living. Steel-
men believe Americans will be
buying more cars, more appli-
ances, building more offices, stores
and homes more bridges, schools
and highways.
Benjamin F. Faules, in his
slogan song as he steps down from
the chairmanship of the board of
U. S. Steel, says his company to
keep in step must add more than
one million tons of new capacity
each year.
Eugene G. Grace, chairman of
Bethlehem Steel, the nation's sec-
ond largest producer, says his
company should add eight million
tons of capacity in the next 10
years.
E. T. Weir, chairman of Nation-
al Steel, says the industry is us-
ing all of its first class equipment
today and now faces the problem
of further development.
W. W. Sebald, president of Arm-
co Steel, and Avery C. Adams,
president of Pittsburgh Steel, join
in the call for another round of
expansion.

Work for a penny?

You bet he does!

Public Service Company's
LITTLE BILL still runs all these for pennies a day!

32 cups of coffee made automatically for a penny's worth of electricity.

2 hours of TV entertainment yours for 2 1/2 cents' worth of electricity.

For a cent or two a week an electric vacuum will clean your whole house.

A week's wash—34. Done automatically with your electric washer.

How Public Service Company keeps your electric bill down (while everything else goes up)

Today your family uses lots more electricity than ever before. And you're getting almost twice as much of it for your money as you did 25 years ago.

One reason is Public Service Company's constantly improved equipment. This year 2 new, high-efficiency generators are going into service. One of these operates so economically it can convert 1 pound of Illinois coal into 1 kilowatt-hour. (That's 18.7% better than the average.)

So, while the cost of living's doubled, electricity still costs you less per kilowatt-hour than it did 25 years ago.

Vatican Paper Claims Peron Shifts Policy

VATICAN CITY (U)—L'Osservatore Romano said today that May Day demonstrations in Argentina show the Argentine regime is openly adopting anti-Catholic aims.

The Vatican newspaper said the Argentine press has for some time spoken of “the necessity of a constitutional reform separating the church and state.”

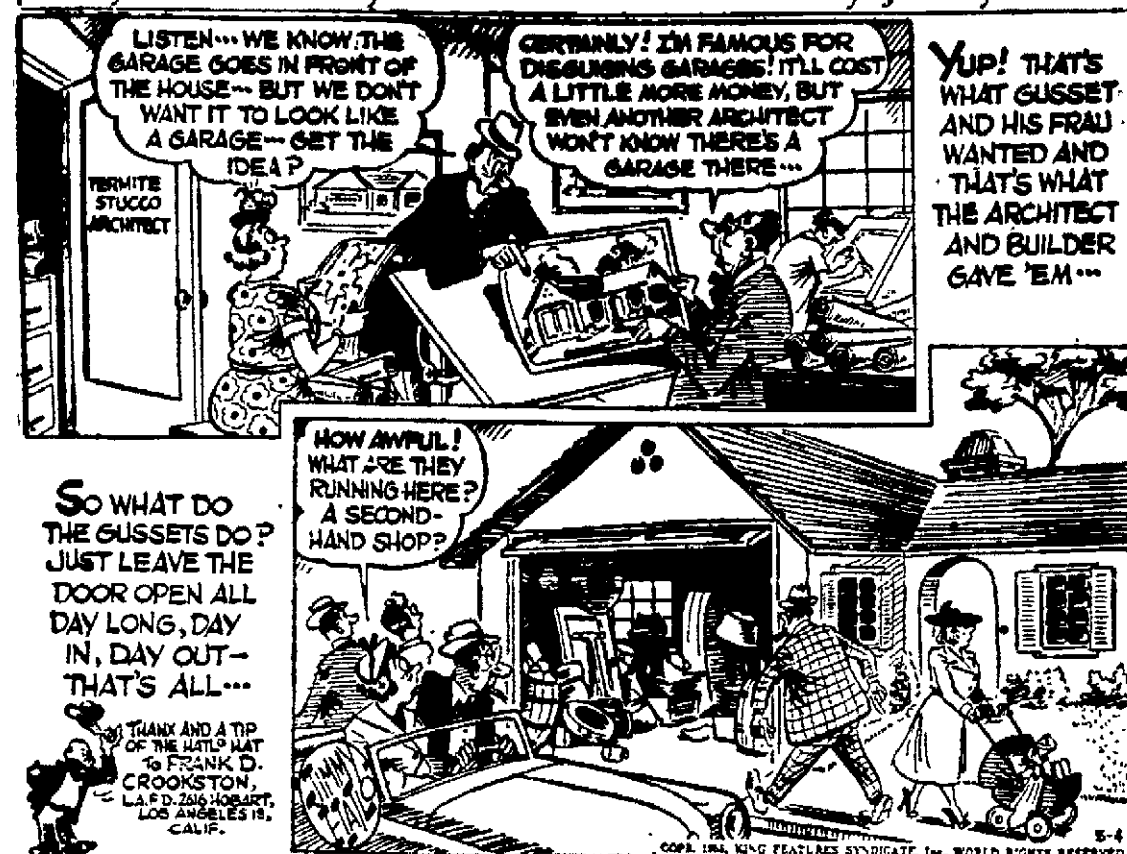

“With the May Day meetings,” said L'Osservatore, “this has now been openly affirmed. In this manner it is confirmed that the Argentine regime is changing its inspiration and is openly adopting anti-Catholic intentions.”

A kipper is a male salmon at the approach of the breeding season when he develops a sharp beak, known as a “kip,” but the name is also applied to herrings which are cured in the same way as true kippers.

D'Alesandro New Mayor In Baltimore

BALTIMORE (AP)—Mayor Thomas D'Alesandro Jr. capped a long comeback from a sickbed by leading Democrats to another sweep of city offices in Baltimore's municipal election Tuesday.

The 51-year-old mayor, extending his victory string to 22 races ranging from the State Legislature to Congress, defeated Republican Samuel Hopkins.

A record 214,335 voters turned out. The previous high was 202,000 in 1931.

Among the 21 Democrats elected to the City Council was Walter T. Dixon, 61-year-old head of a business school and the first Negro to gain that office since 1931.

Unofficial returns from all of the city's 531 precincts gave D'Alesandro 119,450 votes to 94,885 for Hopkins, 41-year-old bank official and former member of the Legislature.

D'Alesandro campaign strategy emphasized his efforts to get the Baltimore Orioles into the American League last year almost as much as the civic improvements under his administration—streets and street lighting, schools and construction of the Friendship International Airport.

Hopkins emphasized the dangers of one party being long in office in his campaign.

Elected Mayor; Town's No More

KILL DEVIL HILL, N. C. (AP)—Mrs. Emily Mustan, elected mayor of Kill Devil Hill Tuesday, would take office today—but today this town ceases to be a town.

Voters, while electing a mayor, repealed their town charter.

Property owners, peeved because tax rates had jumped 200 per cent since incorporation in 1953, led the fight to kill the charter.

Kill Devil Hill is the site of the Wright brothers famous first powered flight.

Although there is a tradition that kites were invented at Tarentum about 400 B.C., they have been used by peoples of Asia and Africa from time immemorial.

Actress Gets Divorce From Tyrone Power

SANTA MONICA, Calif. (AP)—As a prelude to her departure for Spain for a movie, actress Linda Christian divorced Tyrone Power Tuesday and obtained a million-dollar property settlement from him, then beat efforts of a New York jewelry firm to cause her arrest.

Van Cleef and Arpels, the jewelers, asked for Miss Christian's detention on the representation that she has steadfastly refused to disclose the whereabouts of \$122,500 worth of jewels the firm sold to Robert H. Schlesinger, of Milwaukee.

The concern says Schlesinger has refused to pay for the gems and Miss Christian says Schlesinger gave them to her, that they are hers, unequivocally, and that she gave no consideration to Schlesinger and did not promise to marry him.

The actress stated that the jewelry is in a safe place with

Stratton Promises Iowa Toll Link to Davenport

WASHINGTON (AP)—Gov. Stratton has assured Iowa that the Illinois' Turnpike system will extend to Davenport.

In a joint statement Tuesday, Stratton and Gov. Hoegh of Iowa said: "By our two great Midwest states working together we can improve our transportation facilities to our mutual advantage."

The new Iowa Toll Road Authority can't begin building superhighways until Illinois—or some other border state—has perfected plans to build a toll road to the Iowa border.

Govs. Stratton and Hoegh listed these points as specific advantages of the toll road system:

1. A connection would be supplied between the East and the

"full precautions against loss or theft," in answer to the jewelers' indication through its lawyers that it fears Miss Christian might dispose of the gems abroad.

Presiding Superior Court Judge Clarence L. Kincaid, after hearing arguments for an hour, decided there had not been sufficient showing "for such a drastic remedy as civil arrest."

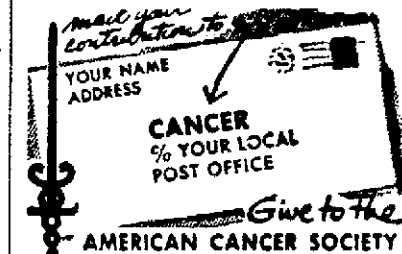

Midwest by way of super high-ways.

2. Illinois and Iowa also would provide a lake link between the Far West and the Atlantic Coast.

3. By developing self-liquidating toll roads, the two states would have more money available for other primary and secondary roads.

4. Lower interest rates would be possible on the toll road revenue bonds of the two states.

The original Illinois Toll project extends from west of Chicago to Aurora and provides that it may continue west to Rock Island, which adjoins Davenport, Iowa. It is under this provision that the joint program can be worked out, the governors said.

REMEMBERING—These new stamps were issued recently at Ghent, Belgium, in honor of an exhibition marking the 400th anniversary of the abdication of Charles V as emperor of Germany and king of Spain. Upper stamp, reproduced from a painting by Louis Gallait, shows Charles abdicating in 1555 at age 50. Lower stamp shows Charles as a baby lying in his crib. The son of Philip, archduke of Austria, is surrounded by his family and court followers.

24 GIs Injured During Maneuvers

PANAMA (AP)—Twenty-four U.S. Army paratroopers were recovering today from injuries suffered in a mass drop during a war games exercise. The most serious injury was a broken nose.

Gusty winds which dragged the men over the ground were blamed for the mishap.

A total of 480 men of the 11th Airborne Division from Ft. Campbell, Ky., took part in the mass jump, staged at Rio Hato, 75 miles from Panama City.

Throws Party To Celebrate Citizenship

DETROIT (AP)—Alfred P. Adamo is giving a party today in honor of his friend of 50 years standing—the United States of America.

Adamo, 67, has invited 300 friends to join him in celebrating the 50th anniversary of the day he arrived in this country as a penniless Italian immigrant.

Each guest will receive a printed booklet, written by Adamo, on "What America and Freedom Has Meant to Me."

It tells the story of an Italian boy who grew up on a farm in the province of Catanzaro, where beauty abounded but where opportunity was strictly limited.

At 17, when he was working as a bricklayer's assistant at 4 cents a day, Adamo persuaded a cousin in Pittsburgh to advance him the boat fare to the United States. He landed in this country May 4, 1905, and obtained his first job in Pittsburgh, working on the city streets at \$1 a day.

During the next 10 years he worked as a foundry worker and dishwasher in Pittsburgh, a miner in West Virginia, a day laborer, railroad section hand and janitor in Denver. He became a U. S. citizen in 1913.

In 1915, lured by reports that Henry Ford was paying \$5 a day to his auto plant workers, Adamo came to Detroit. Here, he successively became a foundry worker, auto worker and grocery owner before starting his own real estate and insurance office, a business he still runs.

Adamo has this to say in his booklet paying tribute to his adopted country:

"America is the only country in the world that has given man justice, freedom and equality."

Christmas celebrations were banned in Massachusetts from 1659 to 1681.

Elbe Vets Stranded; Funds Low

NEW YORK (AP)—Ten American veterans today still were seeking funds for a trip to Moscow for a reunion with the Soviet soldiers they met at the Elbe River during World War II.

The 10 were stranded here Tuesday when it turned out they hadn't sufficient funds to reach Paris. Transportation from Paris to Moscow was assured them by the Soviet government.

The Moscow reunion, part of the Soviet celebration of the 10th anniversary of victory over Nazi Germany, is set for May 9. The Americans were invited by the Soviet government.

Joseph Polowsky, of Chicago, head of the group, appealed for funds. He said he is determined to make the trip, even if the others cannot.

The group canceled reservations on a Trans World Airlines flight Tuesday night after it became apparent they hadn't enough money. The trip would cost them a total of \$5,580.

"We thought we had a commitment for the money but it didn't materialize," Polowsky said.

Okay, Kids, It's Time to End Pogo Stick Marathons

COLUMBUS, Ohio (AP)—All right, kids, the doctor says it's time to slow down on this pogo-stick craze.

While claims for new records in the number of jumps were popping up here and there about the country, Dr. Robert A. Evans, Franklin County health commissioner, said "it's about time to call the whole thing off."

He said there's no doubt that "every time you bounce up and down on one of these things you've made your heart do extra work," and added he believed there could be brain injury from the shocking bounces.

About 300 times in a row should be the maximum, Dr. Evans said.

A Columbus boy claimed the first record April 25 with 2,133 jumps. Since then the figure has mounted steadily in reports from all sections of the country. In Zanesville, Ohio, 11-year-old Mary Jane Stebbins, daughter of Clair C. Stebbins, editor of the Zanesville Signal, pestered her dad to tell the world about her record—8,202. There were many claims elsewhere in the 5,000 figure.

Mother of the Year Has Advice for Child Rearing

NEW YORK (AP)—A bit of advice to parents everywhere from the American Mother of the Year:

"Love your children with all your hearts; but discipline them before it is too late."

Also, says 75-year-old Mrs. Lavina Christensen Fugal:

"A child should know discipline by the age of 3. Forget little things they do wrong that are not important. Praise them for important things, even if you have to stretch them a bit."

Mrs. Fugal, a hard-working farm widow from Pleasant Grove, Utah, was interviewed Tuesday at the Waldorf-Astoria Hotel during a series of activities for her that will last through Friday.

Close to tears, she said of her family life:

"I've had more blessings than

it seems to me one person can stand. And for this I am indebted to Our Heavenly Father. We've had trials, financial difficulties, disasters—our one resource has always been Our Heavenly Father."

Mrs. Fugal, a deeply religious Mormon, is the mother of four sons and four daughters and grandmother of 34.

She will receive her award as American Mother of the Year from the American Mothers Committee at a luncheon Friday.

Reds Playing Waiting Game

May Get Quemoy, Matsu By Psychological Means

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON (AP) — The Red Chinese, by design or necessity, have played it pretty close since the Korean War. It's almost as if a public relations man had told them:

"Don't push your luck. Next time don't just jump into war. That's the hard way. Next time give yourself time to see what American public opinion is. That may let you know how far you can go, and what you can get, without war."

The Communists, by stopping United Nations forces in Korea, built up their prestige and self-confidence. But they lost heavily in men and supplies.

Given Insight
Their lack of readiness may be the real reason they haven't started shooting again. But, at the same time, Korea gave them a sharp insight into American thinking.

The Americans not only wanted to get out of the Korean War but were thereafter reluctant to get into war in Asia, where they could strip themselves bare of men and resources.

The Chinese Communists' first move after Korea was to help Ho Chi Minh and his Communist-led Vietnam whip the French in Indochina. They could have sent armies in to help him.

But Secretary of State Dulles warned — or maybe it wasn't a warning, because his language was so vague — that the United States would get into the Indochina fighting if the Red Chinese marched in.

Instead of sending in troops, the Reds pumped supplies and expert advisers into Indochina. Ho Chi Minh smashed the French. The United States did not go in. American allies wouldn't go in and the United States would not go in alone.

This was more evidence for the Reds of American reluctance to get into a fight in Asia. It must have been encouragement for them to make push again — which they did — without starting to shoot right away.

Their next move: threats to capture Formosa and the Matsu and Quemoy islands. They made no attempt to do so. By waiting they were able to learn what Americans

thought of getting into war over the islands.

American opinion stiffened on defending Formosa. A Chinese attack on that almost certainly, at least right now, would mean war with the United States. But American opinion was divided on defending Quemoy and Matsu.

In the end, if the Reds are patient, this country may let them have Matsu and Quemoy. Meanwhile, they build up their air power as a threat to Quemoy and Matsu. Maybe when they feel strong enough they'll start a war by attacking the islands.

But why should they, if by waiting a little longer they may get them free, as they may? Their air power buildup may be a psychological needle on the American people to pressure the administration into giving up Matsu and Quemoy since otherwise there is a chance of war.

Boone County 'Clean,' Says Grand Jurors

BELVIDERE, Ill. (AP) — A quick look-see for vice and gambling has produced only compliments for the law enforcement in Boone County. A grand jury heard 13 witnesses Tuesday in a surprise investigation.

The investigation was touched off last month by three ministers who declared "there has been scandalous dereliction of duty on the part of some Boone County officials."

The Protestant ministers — the Rev. Harry Hosmer, the Rev. William H. Fetz and the Rev. Rex Talmadge — were subpoenaed and testified at the investigation.

Also appearing were W. H. Morris of Springfield, assistant state police superintendent, Lt. Don Barnes of Elgin, state police head in the district, and various county officials.

Commented the grand jury: "Boone County is one of the cleanest counties in the State of Illinois from the standpoint of vice and gambling."

"We would like to compliment our various law enforcement bodies on the fine job they are doing to keep it as such."

The kangaroo family includes at least 158 species and subspecies of living animals and at least 29 fossil species.

DIXON SATURDAY NIGHT SHOPPERS!

Is Dixon a Saturday Night Shopping Town?
Do You Want the Dixon Stores To Be Open Saturday Nights?
We Believe You Do! Read This Carefully

MAJORITY - DIXON STORES TO REMAIN OPEN SATURDAY NIGHTS

A few Dixon stores have announced that they will no longer be open to their customers on Saturday nights, but will allow their customers to come in and shop instead on Friday nights. We do not believe this is fair to our customers and we are therefore not making a change from Saturday night store hours without majority approval FIRST from our customers.

WE BELIEVE . . .

Our friends and customers - our rural and farm trade - our factory and industrial trade, our office workers from Dixon, the surrounding territory, and every city and village near Dixon has a right to shop in Dixon on Saturday night if he wishes to do so.

WE FEEL . . .

That the majority of Dixon shoppers like to shop in Dixon on Saturday night, and do not believe they should be forced to shop in Dixon on Friday night if they do not like to. We feel we can better serve our customers by keeping our stores open for business when they have more time and do not have to look forward to a tough day's work the next day.

WE HOPE . . .

We are doing what the majority of our good customers want us to do, and we hope you will let us know by shopping on Saturday night in Dixon.

WE ASK . . .

That you seriously consider the problem and give us your answer in order that we may do what the majority feels is right.

BECAUSE

We, as a majority, want to do what our customers would like us to do, and not close our stores with no regard for our customers. We ask that you please let us know your feelings by marking the ballot outlined at the right, and either leave it with any merchant listed below, or mail it to the Dixon Chamber of Commerce, Retail Merchants Division. This is important. Future store hours in Dixon depend on you. DO IT NOW—Thank you.

Public Service Co. Pays \$1,430,000 For Hinsdale Plant

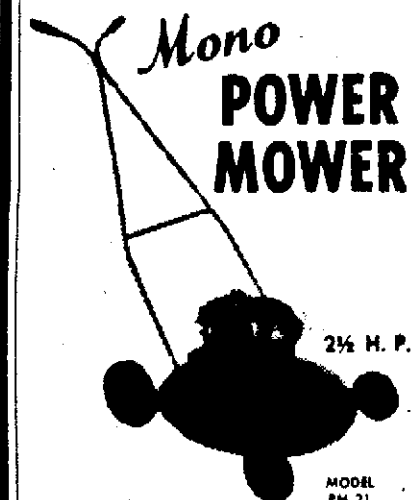

The Public Service Company Division of Commonwealth Edison Company has taken over the operation of the electric system of the Village of Hinsdale. The village, which has owned and operated its own plant for nearly 60 years, sold the system to the Edison Company on April 30.

The property purchase price and rentals aggregate \$1,430,000 which will be paid in installments over a period of 50 years. The company will pay the village \$55,500 annually and the payments will aggregate \$2,778,900. The total is made up of the purchase price plus interest at the rate of 3 per cent.

Public Service Company will continue to operate the local generating plant until it can install a distribution center and transmission lines to connect the village to the Edison-Public Service system.

While the purchase contract allows a period of one year for installing the new facilities, Public Service Company plans to complete them before the end of 1955. The company will substitute its standard 4,160 volt distribution system for the present 2,400 volt Hinsdale system.

The Four Freshmen, one of the nation's most versatile vocal and instrumental groups who have amassed a large following in this area (having played in LaSalle some years back), will appear at our Ballroom on Saturday, May 7, along with Buddy Laine's orchestra.

This combo, rated tops in the vocal departments as well as instrumentally, is composed of Ross Barbour, who plays drums and doubles on trumpet; his brother Don, plays guitar and shares vocal solos with Kai Kratsch, who handles trumpet, bass and French horn; Bob Flanigan, plays both bass and trombone.

Here's something new in singing—the joyous, soaring sound of the Four Freshmen!

Wife Promises Judge She'll Go on Diet

CHICAGO (AP)—Sixty-three pounds stand between Mrs. Lillian Korzen, 43, and her husband—and she's given herself five months to get rid of the excess.

Her husband, Michael, 42, is suing for divorce on the ground of cruelty. However, he says he'll take her back if she reduces.

Mrs. Korzen weighs 190 and is 5-foot-2. When they were married in 1937 she weighed 127.

Her decision to reduce was prompted by Circuit Judge Cornelius J. Harrington. The Korzens appeared before him Tuesday to press their charges. Mrs. Korzen

has filed for separate maintenance, charging desertion.

The judge had a one-hour private talk with each of them. He said he lectured her on the consequences to her health and to the welfare of her two children if she continued her eating habits.

After learning of his wife's promise, Korzen commented: "He (Judge Harrington) was able to do in one hour what I haven't been able to do in 10 years."

IAA President Blames Support For Corn Slump

CHICAGO (AP)—High price supports are blamed by Otto Steffey, president of the Illinois Agricultural Assn., for weakening the state's corn market.

He says land diverted from corn production by the price support program is planted to feed grains which compete with corn.

As a result, he said Tuesday, "the market price of corn has averaged 5 or 10 cents a bushel under prices a year ago—and corn is the most important farm crop in Illinois."

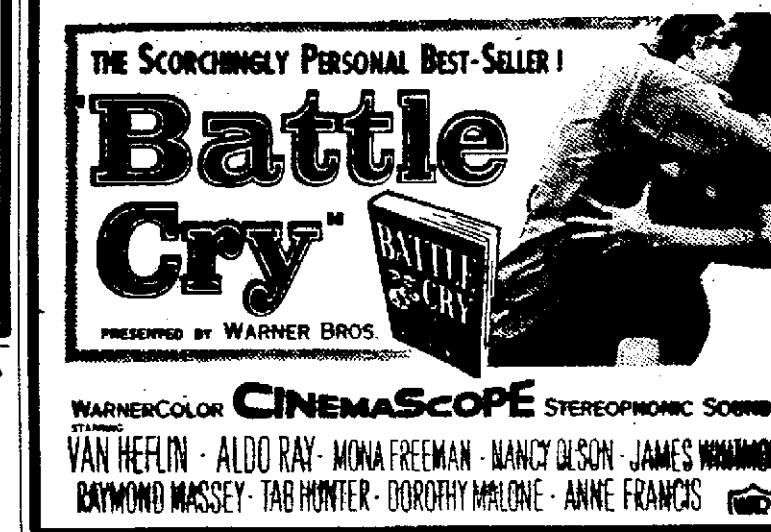

Steffey urged farmers to oppose a congressional bill which would restore price supports on all basic farm crops to 90 per cent of parity. Debate on the bill, H. R. 12, was scheduled to begin in the House of Representatives today.
